NOTICE OF ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for the Proposed Highway 404 between Aurora Road and Davis Drive in York Region

Proponent: The Minister of Transportation and Communications

E.A. File No. 1-81-0024-000

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above Environmental Assessment and/or its review by the Ontario Government, pursuant to the *Notice of Completion of Environmental Assessment Review*, dated October 21, 1982, has expired as of November 30, 1982. I received no requirements for a hearing by that date. I do not consider it advisable to require the Environmental Assessment Board to hold a hearing at this time.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

I have considered the purpose of the Act, the above Environmental Assessment and the Review, and am of the opinion that the Environmental Assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions.

Accordingly, I accept the Environmental Assessment.

HEARING

Under section 13 of the Act, before I, or the Environmental Assessment Board, can consider whether approval to proceed with the undertaking

should or should not be given, or should be given subject to terms and conditions, the Proponent or anyone having previously made a submission under subsection 7 (2) of the Act on the *Notice of Completion of Environmental Assessment Review* for this undertaking, may require a hearing by the Environmental Assessment Board with respect to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions.

The Proponent has waived his right to a hearing on the approval of the undertaking and no submissions have been made by others under subsection 7 (2).

APPROVAL TO PROCEED WITH THE UNDERTAKING

I have considered the purpose of the Act and the Environmental Assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions set out below.

REASONS:

The reasons for giving approval are:

1. On the basis of the Proponent's Environmental Assessment and the review process, the Proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.
2. No other more beneficial alternative method of implementing the undertaking was identified.
3. On the basis of the Proponent's Environmental Assessment, the construction, operation and maintenance of the undertaking will be consistent with the purpose of the Act (section 2).

CONDITIONS

1. Except as provided by the subsequent conditions, the Ministry of Transportation and Communications shall comply with all of the provisions of the Environmental Assessment which are herein incorporated by reference.
2. The Ministry of Transportation and Communications shall forward to the Ministry of the Environment's Central Region information on the design of sediment traps and erosion control measures and on how any sediment build-up at these measures will be removed and disposed of; and will carry out any additional measures recommended by the Central Region.
3. The Ministry of Transportation and Communications or its contractors will adhere to the provisions for noise control during construction outlined in the Ministry of the Environment's "Model Municipal Noise Control By-Law" (August, 1978) when operating construction equipment within 300 meters of any residences.
4. The Ministry of Transportation and Communications shall require its contractor to inform the Regional Archaeologist of the Ministry of Citizenship and Culture of any chance discoveries of archaeological evidence in the course of construction and shall ensure that any such discoveries of which the Ministry of Transportation and Communications becomes aware are communicated to the Regional Archaeologist. If any discoveries are made, the Regional Archaeologist shall be informed immediately and be provided with the opportunity to arrange for the salvage of evidence, at the expense of the Proponent.
5. The Ministry of Transportation and Communications shall compile a complete record of the Drury House which is to be removed, including materials, dimensions, floor plans, distinctive features and details, siting and any other information that would enable the study or comparison of the building as found. Copies of this record should be deposited with the Local Architectural Conservation Advisory Committee and forwarded to the Ministry of Citizenship and Culture.
6. This approval does not apply to any portion of the proposed undertaking north of Davis Drive with the exception of those activities required to construct the Davis Drive over-pass and the two related ramps to provide access to and from the south.
7. In advance of excavation, the Ministry of Transportation and Communications shall file in the public record for the undertaking information on the location of borrow sources to be used for this undertaking, the ownership of the borrow sources and the dates between which excavation is scheduled to occur. The Ministry of Transportation and Communications shall also forward this information to the Maple District of the Ministry of Natural Resources, The Ministry of the Environment's Central Region and the Ministry of Citizenship and Culture in advance of excavation.
8. The Ministry of Transportation and Communications shall file in the public record for the undertaking the following information:

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 237/83.
Exemption—Ministry of the Environment—MOE-25.
Made—April 14th, 1983.
Approved—April 14th, 1983.
Filed—April 22nd, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF THE ENVIRONMENT—MOE-25

Having received a request from the Ministry of the Environment that an undertaking, namely:

A. The activity of excavating PCB contaminated materials (soil and asphalt) from portions of the Lake Clear Road and Opeongo Road and adjacent lands (the source area) located in Sebastopol Township, Renfrew County.

B. The replacement of the excavated material with uncontaminated granular fill.

C. The resurfacing with asphalt of the excavated portions of the Lake Clear Road and Opeongo Road and road shoulders.

D. The transport and delivery of PCB contaminated materials from the source area to a PCB waste disposal site located on Lot 15, Concession XIII, in Sebastopol Township, Renfrew County and the interim storage at that site of PCB contaminated materials removed from the source area.

E. The location of a safe final disposal site, which may be on Lot 15, and the disposal of the PCB contaminated materials at the site when it has been located.

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Ministry of the Environment that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. PCBs will continue to gain access to Lake Clear from the Lake Clear Road and Opeongo Road.

B. Biomagnification of PCB inputs to Lake Clear may continue to occur through the food chain.

C. The decline of PCB levels in Lake Clear fish will be postponed.

D. The economic and social well being of the residents of Sebastopol Township will continue to be affected by the restricted fish consumption in Lake Clear and by a decline in area tourism.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The work can begin this year during the winter months when lake and river levels are low and the lake is frozen. This will minimize adverse environmental impacts.

B. The excavation can most cost effectively be carried out in winter weather conditions.

C. A substantial reduction in the migration of PCBs to Lake Clear will result immediately.

D. The fish contaminant level recovery rate will be accelerated by the removal of the source of the PCBs.

E. The time for the restricted fish consumption designation will be minimized.

F. The negative effects on the economic and social well being of the residents of Sebastopol Township will be minimized by removing the PCB contaminated materials.

G. The Director under O. Reg. 11/82 will ensure that instructions are issued which will result in the PCB contaminated materials being finally disposed of in a safe, properly monitored site.

This exemption is subject to the following terms and conditions:

1. Potentially affected agencies and organizations including the municipality and the Cottage Owners Association will be notified of the activity prior to its commencement. The concerns and requirements of these agencies will be taken under advisement in the program.

2. The excavation, the excavated site and the disposal sites will be monitored to prevent injury to persons and contamination of adjacent land or water.

3. A written report will be submitted to the Regional Director of the Ministry of the Environment describing the activities and the monitoring results.

4. No PCB contaminated soil will be removed from the source area, pursuant to this order, after December 31, 1985. O. Reg. 237/83.

Minister of the Environment

Schedule 15

SCHEDULE OF BENEFITS

PREAMBLE

A. General

1. The rates listed in this Schedule of Benefits are the maximum payments which can be made by the Ontario Health Insurance Plan.

2. Insured medical services are limited to the services which are medically necessary, which are listed in this Schedule of Benefits and which are not specifically excluded by legislation or regulation (see Appendix A for a list of specific exclusions).

3. Additions, deletions or other modifications of the Schedule of Benefits require recommendation by the Ontario Health Insurance Plan. Such recommendations are made in consultation with the Ontario Medical Association.

4. This Schedule is a public document and frank discussion with patients regarding the listed rates is recommended.

5. Claims for services which are not listed in the Schedule or which are listed as N.A.B. (not a benefit) or which are excluded as benefits by legislation or regulation should not be submitted to the Plan. Such services may be charged directly to patients or others requesting them.

6. The principles governing proper professional charges are incorporated in the Regulations (Medicine) of the Health Disciplines Act.

7. Each physician who participates in the care of a patient is entitled to compensation commensurate with the services he renders.

8. Whenever possible, the physician should acquaint the patient or person financially responsible with his obligations to those concerned with his care. This is particularly important where supportive or concurrent care is rendered or when a consultation and/or procedure are being arranged.

9. Each physician participating in the care of a patient should render to the patient, or to the financially responsible party, an itemized statement of charges for professional services.

10. Each physician participating in the care of a patient should, on request, send a receipt to the patient for all payments made by him.

11. If fees are collected by an organized group, the name of the physician rendering the service should be clearly shown on the bill or claim card.

12. Documentation: whenever a physician examines or treats a patient, an appropriate record of this service must be made and such record must be in keeping with section 29 of Regulation **448 of the Revised Regulation of Ontario 1980 under the Health Disciplines Act.** (see Appendix B).

13. Claims may be submitted for services which a patient receives from the team of staff man, resident, intern and clerk in a teaching unit, provided that the conditions as set out hereunder apply.

On October 10, 1972, the Minister of Health confirmed that the joint recommendations of the College and the O.M.A. governing the charging of fees for services provided by interns and residents in clinical teaching units are acceptable to the Ministry of Health. In his letter the

PREAMBLE

Minister made it very clear that he is looking to the College and the Medical Schools to ensure that the ethical rules governing these billing procedures are followed meticulously in all cases.

It has been carefully explained that the responsible staff man must be present in the clinical teaching unit at the time the services are rendered and must be identified to the patient at the earliest possible moment. No fees are to be charged for services given by the intern or resident prior to this identification taking place. The following rules are now in effect:—

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient. His relationship to the team shall be defined by the clinical teaching unit Director and his role must be known to the patient and other members of the team. He shall assume full responsibility for the appropriateness and the quality of the services rendered.

Specific regulations must vary with the service and form of care being delivered:—

(a) In order to claim for physical procedures being carried out by an intern or resident, the responsible staff man must be in the clinical teaching unit and immediately available to intervene.

(b) In pyschotherapy where the presence of the staff man would distort the psychotherapy milieu, it is appropriate for the staff man to claim for psychotherapy when a record of the interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff man may not exceed the total time spent by him in both such interview review and in direct supervision.

(c) In other departments or services, the staff man should only claim for visits on the days when actual supervision of that patient's care takes place through the presence of that staff man in the clinical teaching unit on that day. This, of course, involves a physical visit to the patient and/or a chart review with detailed discussion with the other member(s) of the health team.

(d) In those situations where on a regular basis a staff member might supervise concurrently multiple procedures or services through the use of other members of the team, the total claims made by the staff man shall not exceed the amount that the staff man might make in the absence of the other members of the team.

Any claim rendered should be in the name of the responsible staff man.

14. Charges for missed appointments are not benefits of O.H.I.P.

B. Terms and Definitions

Call or Visit: is the service by a physician to or on behalf of a patient for assessment and/or treatment.

1. **Consultations:**

(a) A consultation refers to the situation where a physician, in light of his professional knowledge of the patient, requests the opinion of another physician competent to give advice in this field, because of the complexity, obscurity or seriousness of the case or because another opinion is requested by the patient or an authorized person acting on his behalf. The consultant is obliged to perform a general or specific assessment, review the laboratory and/or other data and submit his findings, opinions and recommendations in writing to the referring physician.

(b) If a consultant is requested by a physician on duty in the emergency department to see a patient in consultation, the consultant may claim a consultation for this service. If

PREAMBLE

the consultant is requested to perform this same service by a resident or intern, the consultant may claim a general or specific assessment according to his specialty.

(c) For laboratory and procedural benefits connected with consultations, see listings of Laboratory Medicine and Diagnostic and Therapeutic Procedures.

(d) A consultation is not to be claimed as such when:

(i) The patient presents himself to a consultant's office without prior knowledge of the primary physician. The sending of a report to the primary physician under these circumstances does not justify a claim for a consultation.

(ii) The primary physician is not asked for professional advice but is simply asked by the patient for the name of a specialist in a particular field and the patient seeks out the specialist himself.

(e) A diagnostic radiology consultation applies when radiographs made elsewhere are referred to a radiologist for his written opinion or when a radiologist is required to make a special visit at Night (5.00 p.m. to 7.00 a.m.), Saturdays, Sundays and Holidays to consult on the advisability of performing a diagnostic radiological procedure which eventually is not done. A consultation does not apply when the radiographs referred to above are used for comparison purposes with radiographs made in the consultant's facilities.

(f) A diagnostic pathology consultation applies when tissue slides are referred to a second pathologist for a written opinion. It includes secretarial or other assistance **but** does not apply when the tissue slides referred to above are used for comparison with tissue slides done in the consultant's facilities. When a diagnostic pathology consultation fee is claimed L821 may not also be claimed.

(g) A pathology consultation or repeat consultation applies when a pathologist is requested to examine a patient and provide a written opinion.

(h) A diagnostic nuclear medicine consultation applies when nuclear medicine studies are referred to a nuclear medicine specialist for a written opinion or when the nuclear medicine physician is required to make a special visit at night (5.00 p.m. to 7.00 a.m.), Saturday, Sunday or Holiday to consult on the advisability of performing a nuclear medicine procedure which eventually is not done. A consultation does not apply when procedures done elsewhere are used for comparison purposes with nuclear medicine studies made in the consultant's facilities.

(i) A nuclear medicine consultation or repeat consultation applies when a nuclear medicine specialist is requested to examine a patient and provide a written opinion, all of which takes a greater amount of time and effort than a nuclear medicine study would normally require. It may be done in conjunction with a nuclear medicine study but if so, the lesser professional benefit (P_2) rather than the greater benefit (P_1 should be claimed in addition to the technical (T) benefit.

(j) Some nuclear medicine specialists have other specialist qualifications which allow them to claim other consultation benefits (e.g., internal medicine). A nuclear medicine consultation or repeat consultation may be claimed in lieu of another consultation (e.g., internal medicine) but would not be combined with a claim for such a consultation by the same consultant.

(k) A prenatal consultation by a paediatrician applies when a physician considers a foetus

PREAMBLE

of greater than 20 weeks gestation to be at risk or in jeopardy by reason of continuation of pregnancy in the presence of maternal and/or foetal distress, and requests the opinion of a paediatrician competent to give advice in this field. The paediatrician shall perform a general or specific assessment, review laboratory and other data and submit his findings and recommendations in writing to the referring physician. Such a consultation does not preclude the paediatrician from a postnatal consultation on the infant.

(l) **A special surgical consultation may apply when a surgeon provides:**

(i) **All the components of a regular consultation but is required to spend considerably more time than is usual in consultation because of the very complex, obscure or serious nature of the problem;**

(ii) **A tertiary consultation based on the foregoing criteria.**

The surgeon may claim for special consultations on an I.C. basis (see para 25 Section B)

(m) OHIP benefits for consultations normally are limited to one consultation per year, per patient, by any one physician. However, if the same patient is referred to the same consultant a second time within the year with a clearly defined unrelated diagnosis, one additional consultation may be claimed per year.

2. **Limited consultation** may involve all of the components of a full consultation but is less demanding, and in terms of time, normally requires substantially less of the physician's time than the full consultation.

3. **Repeat Consultation:** requires all of the criteria of a full consultation and implies interval care by the primary physician. The situation in which the consultant requests the patient to return for a later examination is not a repeat consultation.

4. **General Assessment:** shall comprise a full history, an enquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient.*

OHIP benefits for general assessments normally are limited to one per year per patient by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional general assessment may be claimed per year. In the case of a patient who proceeds normally to hospital, the admitting physician may claim one additional general assessment per year provided 90 days have elapsed since the last general assessment rendered (anywhere) to that patient by the admitting physician. If the patient doesn't qualify for a general assessment by the admitting physician, he may claim a general re-assessment.

5. **General Re-Assessment:** shall comprise the same services as a general assessment except that the history need not include all the detail already obtained in the original general assessment.*

OHIP benefits for general re-assessments, except for hospital admission re-assessments, are limited to two per year, per patient, by any one physician.

*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

6. **Specific Assessment:** shall comprise a full history of the presenting complaint, enquiry concerning, and detailed examination of the affected part, region or system, as needed to make a diagnosis and/or exclude disease and/or assess function, an appropriate record, and advice to the patient.*

Physicians qualified in two specialities (EENT for example) may only claim for one visit, eg: a consultation (if referred) or a specific assessment (if non-referred), if both systems are examined during the same visit. However, two consultations or two specific assessments, etc. may be claimed if both systems are examined, each on a separate visit.

OHIP benefits for specific assessments normally are limited to one per year, per patient, by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional specific assessment may be claimed per year.

7. **Specific Re-Assessment:** shall comprise a full relevant history and a comprehensive physical examination of one or more systems but not requiring an evaluation of the patient as a whole.*

This service is the admission assessment when the patient has been seen prior to admission in the same illness. It is included in the surgical fee except for those procedures marked I.O.P. Complete Care and Fractures and Dislocations requiring no reduction.

8. Intermediate Assessment: is a primary care service for physicians providing general practice or paediatric services and is a more extensive assessment than a minor assessment. It shall comprise a history of the presenting complaint(s), enquiry concerning and examination of the affected part(s), region(s), or system(s) or emotional disorder as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.*

9. **Multiple Systems Assessment:** shall comprise a detailed history and examination of more than one system, part or region, an appropriate record and advice to the patient.

10. Partial Assessment: shall comprise a history of the presenting complaint, the necessary physical examination, an appropriate record and advice to the patient. It also applies to subsequent visits for assessing the response to treatment and/or advice provided in a previous service.

11. **Minor Assessment:** is a brief assessment comprising the necessary history, examination of the affected part or region, an appropriate record and advice to the patient. It also applies to a subsequent visit solely for assessing the response to treatment of a previously diagnosed condition when the necessary examination and/or assessment reveals that no additional clinical assessment is required and none is performed.*

12. **Psychotherapy:** is any form of treatment for mental illness, behavioural maladaptations, and/or other problems that are assumed to be of an emotional nature, in which a physician deliberately establishes a professional relationship with a patient for the purposes of removing, modifying or retarding existing symptoms or attenuating or reversing disturbed patterns of

*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

behaviour, and of promoting positive personality growth and development. Accordingly, therefore, a psychotherapeutic procedure may be claimed if a half hour or major part thereof has been spent by a physician in such treatment of the patient. Psychotherapy may not be claimed by more than one physician for the same patient at the same time.

In order to qualify for a psychotherapy claim, a minimum of twenty minutes must be spent with the patient. When psychotherapy extends beyond thirty minutes, the major part (**16 minutes**) of the next half hour must be spent with the patient to qualify for an additional half hour fee. Similarly, after an hour of psychotherapy, the major part (**16 minutes**) of the next half hour must be spent to qualify for an additional half hour fee and so on." (Medical Review Committee Bulletin, Volume 3, Number 1.)

13. **Counselling:** as distinct from psychotherapy, counselling is that activity in which the physician engages in an educational dialogue with the patient(s) on an individual or group basis wherein the goal of the physician and patient(s) is to become aware of the patient(s) problems or situation and of modalities for prevention and/or treatment. Counselling is not intended for ongoing treatment or a substitute for a patient assessment, and it must be rendered personally by the attending physician.

Advice given during a visit for patient assessment and relative to that assessment (see definitions) is included in the assessment benefit and does not qualify for "counselling".

14. **Genetic Counselling:** includes interviewing the appropriate family members, the collection and assessment of adequate clinical and genetic data to make a diagnosis, construct a pedigree, and assess the risks to persons seeking advice. It includes imparting this information and the various alternatives to the appropriate family members in such a way that they can make informed decisions about dealing with the genetic problem.

15. **Examinations of Well Persons:**

(a) **Age:** (unless otherwise specified)

Newborn — up to 10 days of age.
Infant — up to 2 years.
Child — up to and including 15 years
Adolescent — up to and including 17 years
Adult — 18 years or over.

(b) **Newborn Care:** is the routine care of a well baby up to ten days of age and should include a complete physical examination of the baby and necessary instructions to the mother. The service shall involve at least two visits, and normally may not be claimed for the same patient by more than one physician.

When a well baby is transferred to another hospital (because of the mother's state of health, for example) claims for newborn care by a physician at each hospital may be appropriate.

(c) **Low Birth Weight Care:** is the care of a baby weighing less than 2.5 kilograms at birth.

(d) **Well Baby Care:** the periodic visits of a well baby during the first two years of life involving complete examination with necessary weight and measurements and instructions to the parent(s) regarding health care.

(e) **Annual Health or Annual Physical Examination** (Including Primary and Secondary School Examinations): shall comprise all the elements of a general assessment as it

PREAMBLE

pertains to an individual who presents and reveals no apparent physical or mental illness. O.H.I.P. benefits for any one physician are limited to one Annual Health Examination per patient per year after the second birthdate. To qualify for O.H.I.P. benefits, an Annual Health Examination normally must be requested by the patient rather than a third party. Under Regulation 452 of Revised Regulations of Ontario, 1980 under the Health Insurance Act, examinations for the purpose of "legal requirements or proceedings" are excluded from coverage. However, it is recognized that an Annual Health Examination will satisfy some or all of the requirements for examinations required by statute but excluded by the above mentioned Regulation. In such instances and where a prior claim for an Annual Health Examination has not been submitted to the Plan in the previous twelve months for that patient, it would be appropriate to submit a claim to OHIP for this service. The OHIP benefit in these cases covers the Annual Health Examination only and not any charges peculiar to the legal requirements, such as charges for the completion of forms.

(f) **Predental General Assessment: Is the history and examination of a patient required prior to dental surgery under anaesthesia in hospital. A diagnosis is not required by OHIP for this service.**

Other Terms, Definitions and Guidelines

16. **Coding:** This schedule lists a code number opposite most items. Items which are not coded are identified either as U.V.C. or N.C.

U.V.C.— use visit codes applicable to the pertinent service and specialty.

N.C.— no code applicable. This service is not a benefit (N.A.B.) of O.H.I.P., and may be charged directly to patients.

For the surgery portion of this schedule, physicians submitting claims in coded form should add to the code numbers, the suffix A if they perform the procedure, the suffix B if they have assisted at the surgery or the suffix C if they have administered the anaesthetic.

For those diagnostic and/or therapeutic procedures which have the technical and professional components listed separately, but under the same code, the suffix A should be added to the code numbers when both components are being claimed, the suffix B when only the technical component is being claimed, or the suffix C when only the professional component is being claimed.

Where separate codes are listed for the technical or the professional components, the suffix A should be used.

For diagnostic radiology, only one code is listed for each service, even though some of these services may be provided by non-certified radiologists. The code for services rendered by non-certified radiologists should be obtained by increasing the first digit in the listed codes by 5. Thus, for example, the code for the service listed as X001 but rendered by a non-certified radiologist would be X501 plus the appropriate suffix.

17. **General Listings:** include the basic listings for consultations, assessments and other visits wherever they are rendered, except for non-emergency services to hospital or long-term care institution in-patients and for care rendered by a physician on duty in an emergency department. These latter services are listed separately in the Schedule.

A visit rendered to a patient in a rest home, lodge, detoxification centre, half-way house, or other institution not covered elsewhere in the Schedule, should be claimed under the General Listings.

PREAMBLE

18. **Non-Emergency Hospital In-Patient Services:** include the listings for consultations and other visits to registered bed patients.

(a) The general assessment, general re-assessment, specific assessment or specific re-assessment rendered in conjunction with a patient's admission to hospital is considered to be the hospital "admission assessment". Such assessments may not be claimed more than once during a hospital admission even if a patient's care subsequently is transferred to another physician. Moreover, such assessments may not be claimed by a consultant who also is claiming a consultation in conjunction with the patient's admission to hospital. Such consultation by the admitting physician serves as the admission history and examination.

(b) Subsequent routine visits should be claimed as "subsequent visits (minor assessments)" Claims for daily hospital visits must not be made unless a physician actually visits the patient each day. Prior to the weekly and monthly limitations that apply after a patient has been in hospital for 5 weeks (6 weeks for paediatricians), payments for hospital visits generally are limited to one per patient per day. For acute illnesses or exacerbation of original illness requiring additional visits before or after 5 weeks of hospitalization, claims for extra visits should be made on an independent consideration basis.

In the case of a protracted terminal illness additional hospital visits rendered will be accepted on an independent consideration basis for amaximum of **four weeks**

(c) When a patient in hospital is referred by one physician to another, the second physician will not be limited by the Subsequent Hospital Visit formula for the number of hospital visits already rendered by the first physician. In other words, the second physician is entitled to claim for his visits up to five weeks just as if the patient was being attended to in hospital for the first time. However, if the patient is transferred to the care of another physician, the Subsequent Hospital Visit formula would apply just as it would if only one physician was involved in the care.

(d) When a physician already is in the hospital and is asked to assess one of his own in-patients on a non-emergent or emergent basis, the subsequent hospital visit listings apply. However, if he is asked to assess another physician's patient on an emergent basis, the General Listings should be used.

19. **Emergency Department — Physician on Duty Services:** include the listings for minor and multiple systems assessment and the specific premiums applicable to the services rendered by the physician on duty. A physician on duty in the Emergency Department regardless of his specialty should submit claims under these listings. A physician who is not on duty in the Emergency Department should use the General Listings when seeing patients in the emergency or out-patient departments. See Appendix C for further guidelines to claiming for services rendered in the Emergency Department.

20. **Long-Term Institutional Care:** includes the listings for consultations, assessments and other visits to patients in chronic care hospitals, convalescent hospitals, nursing homes and other institutions in which such patients are covered by extended care legislation.

Admission assessments to long term care institutions are classified as —

Type 1 — applies when the admitting physician has not performed a consultation, general assessment or general re-assessment prior to admission and when he carries out a general assessment (on admission) and provides a report for the medical record.

Type 2 — applies when the admitting physician has performed **and claimed** a consultation, general assessment or general re-assessment prior to admission, makes an initial visit and records an admission note describing the condition of the patient following admission.

When a physician already is in the institution and is asked to assess one of his own in-patients

PREAMBLE

on a non-emergent or an emergent basis, the subsequent visit listings apply. However, if he is asked to assess another physician's patient on an emergency basis, the General Listings should be used.

21. Subsequent visits to Long Term Care Institutions: include the supervisory care as well as the active treatment of acute intercurrent illness when the physician is already in the Long Term Care Institution. The supervisory care component includes discussion with the patient and/or examination and also includes as required discussion with the nurse, a chart review and annotation of the chart. When acute intercurrent illness requires a special visit, the appropriate fees under General Listings and Premiums will apply.

22. **Visit for Procedure:** when the sole reason for an office visit is the performance of a certain procedure, the listed benefit for the procedure will apply. (See Diagnostic and Therapeutic Procedures Preamble for exceptions.) When procedures are carried out in the office, emergency or outpatient department on an elective basis, a special visit should not be claimed in addition to the procedural fee.

When procedure(s) are carried out by a physician's employee(s) under the direct supervision of the physician, the usual claims may be made for procedure(s) which are generally and historically accepted as those which may be carried out by the nurse or other medical assistant in the employ of the physician. "Procedures" in this context do not include such services as assessments, consultations, psychotherapy, counselling, etc. Direct supervision requires that during the procedure the physician be physically present in the office or clinic at which the service is rendered.** While this does not preclude the physician from being otherwise occupied he should be in personal attendance on enough occasions to ensure that procedures are being performed competently and he must at all times be available immediately to approve, modify or otherwise intervene in a procedure as required in the best interests of the patient.

For physiotherapy procedures performed under direct physician's supervision as detailed above, see Code G467 on Page 104.

23. **Premiums:**

(a) **Special visit fees chargeable in addition to benefits for services listed under consultations and visits, critical care and injections or infusions.**

(i) A special visit is one which is initiated by the patient or his representative which requires a physician to travel from one location to another to see a patient(s). That is, when the physician is not already in the office, hospital, institution, patient's home, etc. and is called to make a special trip there to attend a patient, a "special visit" premium may be claimed. The premium(s) for a special visit to the office only applies outside of normal office hours but does apply whether or not the office is in the physician's home.

(ii) The special visit premiums apply only to emergent or non-elective calls and do not apply to non-referred or transferred obstetrics. The premiums do not apply to visits on regular rounds, and admission assessments of patients who have been admitted to hospital, etc. on an elective basis do not qualify as "special visits", regardless of the time performed.

(iii) If an institution has arranged to have quarters in the same or in a proximal building in order that a physician will be available to make visits to the institution, particularly at night, these are not considered to be "special visits" to the institution.

When services are rendered on an emergency basis at a site other than listed in this schedule (e.g. roadside, ski slope, etc), the special visit premiums are applicable.

**Some procedures may not require the physical presence of a physician for adequate supervision. Exceptions to this requirement of direct supervision may be made upon recommendation of the Ontario Medical Association and the College of Physicians and Surgeons of Ontario.

PREAMBLE

If a physician is called to pronounce a patient dead, a minor assessment may be claimed along with the appropriate surcharge for the special visit.

(iv) An emergency call with sacrifice of office hours may be claimed in a situation where the demands of the patient and/or the physician's interpretation of the patient's condition is such that the physician responds immediately at the sacrifice of regular office hours.

(v) A special visit at night or on a Saturday, Sunday or holiday may be claimed when non-elective or emergent calls are made between the hours of 5.00 pm and 7:00 am or are received and made on Saturdays, Sundays and Holidays. "Holidays" are defined for the purpose of this schedule as New Year's Day, Good Friday, Easter Monday, Victoria Day, Dominion Day, Civic Holiday, Labour Day, Thanksgiving, Remembrance Day, Christmas Day and Boxing Day. If any of these holidays fall on a Saturday or Sunday, at the physician's discretion either the Friday before or the Monday following will be recognized as the holiday.

(vi) Only one special visit premium (daytime; sacrifice of office hours; or nights, Saturdays, Sundays and Holidays) may be claimed for the same patient, same visit, and does not apply to non-referred or transferred obstetrics.

(vii) The Home Visit premiums apply to emergent or non-elective assessments which are initiated by a call from the patient or his representative. It is recognized, however, that a home visit occasionally may be required because of the patient's medical condition even though the physician has not been called specifically for that visit. For such "elective home visits", the daytime special visit premium B990 is applicable in addition to the appropriate assessment under the General Listings. The Special Visit premiums applicable to nights, Saturdays, Sundays, Holidays or sacrifice of office hours, however, are not appropriate, regardless of the time of the visit.

(viii) Normally, the "additional patient" premiums are not applicable unless the additional patient himself qualifies for a special visit. Patients who drop in to the office or Emergency Department while the physician is there for reasons other than rendering a special visit at that time do not qualify for any of the special visit premiums. However, extra patients during a home visit or those who drop in to the office or Emergency Department while the physician is there rendering a special visit to another patient also qualify for the "additional patient" premiums if an assessment is rendered.

Extra in-patients seen during a special visit to a hospital or other institution do not qualify for "additional patient" premiums unless the physician has been asked specifically to see these extra patients as well. (See also paragraph 18(d) above.)

Patients seen during "office hours" held at night or on Saturdays, Sundays or Holidays do not qualify for any of the special visit premiums.

(ix) **When no consultation or visit fees are chargeable e.g. for postoperative hospital visits by operating surgeon, the minimum premiums for special visits apply for additional patients seen during a special visit. Minimum premiums also apply to additional patients seen requiring critical care (excluding Respiratory Care and Neonatal Intensive Care), Injections or Infusions.**

PREAMBLE

When the foregoing procedures commence after midnight and before 7:00 a.m. any night during the week, increase the procedural fee(s) by 50% (**E410**).

These premiums are not chargeable in addition to the obstetrical fee(s) if labour is induced by medical and/or surgical means by the same physician. However, a forewater A.R.M. or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction.

PREAMBLE

These premiums are not chargeable (during or after a "shift") by emergency or other physicians who have elected or are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time.

****Major Invasive Procedures are considered to be the following:**

G211	G268

E409 or E410 may not be claimed for procedures which mainly involve the interpretation of test results and are not applicable to assessments or consultations. Neither are they applicable to physicians on duty in the emergency department nor to procedures listed in the Diagnostic Radiology, Nuclear Medicine or Diagnostic Ultrasound sections of the Schedule.

(xix) Non-elective Nuclear Medicine, Diagnostic Radiology, Laboratory Medicine or Diagnostic Ultrasound Examinations.

C109 For special visits, evening (5:00 p.m. to midnight) or before midnight, Saturdays, Sundays or Holidays to perform examinations listed in the Nuclear Medicine, Diagnostic Radiology, Laboratory Medicine or Diagnostic Ultrasound sections of the Schedule, a premium of $23.00 may be added to the benefit for the first examination performed on any one patient or may be claimed alone if it is decided that the procedure is not medically indicated and a consultation is not rendered.

C110 For such special visits commencing between midnight and 7:00 a.m., the applicable premium is $ 34.40

(xx) Assistants' services —

E400B For **all** cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for assistant units (basic and time) is increased by 30%.

For cases requiring a special visit to the hospital, an additional premium of $3.60 (C998 C) during the 30% premium period and $7.15 (C999 C) during the 50% premium period may be charged to the first patient treated on each special visit.

PREAMBLE

(b) **Special Care Unit (e.g. I.C.U. or C.C.U.) —**

C101 **For each patient seen on visit to** I.C.U. or C.C.U. (excluding supportive care), add **$** 5.70 to charges for all such visits.
Note: Where visit is not chargeable,
e.g. post operative care by surgeon, claim only **C101**
(excluding Supportive Care, Respiratory Care and Neonatal Intensive Care)

24. **Detention:** benefits may be applicable for detention when under very exceptional circumstances a physician is required to spend considerable extra time with a patient. Such extra time must be **spent in active treatment of the patient,** and it must be to the exclusion of all other work.

Claims for detention must be substantiated by an explanation on the claim card or in an accompanying letter, and should be made on an "I.C." basis according to the following guidelines:

After twenty minutes if the physician spends more than this amount of time providing a minor, **partial** or intermediate assessment or subsequent hospital visit;

After forty minutes if the physician spends more than this amount of time providing a specific or general re-assessment or multiple systems assessment or certification of mental illness;

After one hour if the physician spends more than this amount of time providing a consultation, limited consultation, repeat consultation, prenatal consultation, specific or general assessment.

Detention is not meant to apply to procedures nor to obstetrical care and does not include time waiting for X-rays, lab reports, the operating room or for the patient to arrive for assessment or treatment.

K001 Detention, per quarter hour or part thereof ..... **$** 13.80

K101 Detention, while in attendance with patient(s) in ambulance, per quarter hour or part thereof ..... **$** 23.00

Note: K101 is not applicable to attendance in a vehicle other than an Ambulance.

25. **Independent Consideration — "I.C.":** independent consideration will be given by O.H.I.P. for those items in the Schedule of Benefits which are listed as I.C.. Claims rendered under this heading must include a specific charge along with a detailed explanation of that charge. Where pertinent, an operative report or consultation report is very helpful in rendering independent consideration. It also is helpful if I.C. claims include a comparison of the scope and difficulty of the procedure with other specific procedures listed in the Schedule.

26. **Transferral and Referral:**

(a) A referral takes place when one physician requests for his patient the services of another. The services of the latter may consist of:

(i) an opinion (i.e. a consultation)

(ii) diagnostic tests or procedures (e.g. skin test, biopsy, etc.)
Note: In such cases the referring physician continues to treat the case himself.

PREAMBLE

(iii) treatment (surgical or medical).

The referring physician's O.H.I.P. registration number must be included on the claim submission.

(b) A transferral, as distinguished from a referral, takes place where the responsibility for the care of the patient is completely transferred permanently or temporarily, from one physician to another in the same field or specialty (e.g. where the first physician is leaving temporarily on holidays and unable to continue to treat the case). The physician to whom the patient is transferred should be regarded as substituting for the other physician and is not entitled to claim for a consultation. Physicians who are substituting for other physicians should consider that patients of the latter have been temporarily transferred (not referred) to their care. Where the care of the patient involves a benefit containing several components such as surgery the physicians may consider the surgical benefit a team benefit and decide among themselves how each is to be compensated; traditionally physicians in these circumstances have reciprocated by exchanges of coverage for each other. When physicians routinely or frequently substitute for each other providing hospital visits to registered bed patients in active treatment hospitals, e.g. weekend coverage or daily rounds by various members of a group, the most responsible physician may claim for all the visits.

27. **Most Responsible Physician:** is the attending physician who is primarily responsible for the day to day care of the patient in hospital. In cases of unusual severity where the consultant assumes the role of the most responsible physician, the consultant may claim on a per visit basis and the family physician may claim supportive care. Where the family physician remains the most responsible physician and requests only a consultation, the family physician may claim on a per visit basis and the consultant may claim for a consultation only.

28. **Concurrent Care:** when the family physician remains the most responsible physician but because of the seriousness or complexity of the condition, requests continued directive care by a consultant, the family physician may claim on a per visit basis. The consultant also may claim on a per visit basis, not to exceed four such claims during the first week of concurrent care and not to exceed two such claims each week thereafter while the patient's condition remains serious — this arrangement being agreeable to both physicians.

29. **Multidisciplinary Care:** applies when the complexity of the medical condition requires the services of several physicians in different disciplines. In such cases, each physician should render a separate claim on a per visit basis. This does not refer to a situation where a single benefit for a team of physicians is listed in the Schedule.

30. **Supportive Care:** is the care rendered in hospital by the referring physician, who is not actively treating the case (e.g. writing orders), to a patient under the care of another physician, at the desire of the patient or family, for purposes of liaison or reassurance. The physician may claim for this care on a per visit basis, not to exceed four such claims during the first week of supportive care **determined by the date of the first supportive care visit**) and not to exceed two such claims each week thereafter. If medical complications develop or are present in the post-operative period which require active management by the referring physician, claims for hospital medical care should be rendered, not supportive post-operative care.

31. **Long-Term Terminal Cases in Hospital:** applies to one designated physician responsible for the care of a terminally ill patient. **Terminal care will be deemed to start when care is directed to maintaining the comfort and emotional well being of the patient and non aggressive treatment of the underlying disease process.** For **visits rendered to the terminally ill patient.** (See Preamble, Part B, Paragraph 18 *(b)*

PREAMBLE

32. **Specialist:** a specialist shall be defined (for purposes of application in the case of any given service within this Schedule) as one who holds a certificate from the Royal College of Physicians and Surgeons of Canada in the specialty which normally is considered to encompass the service in question.

A specialist rendering services outside of his specialty should use the codes and tariffs listed in the General Practice section of the Schedule

33. **Differential Benefits:**

(a) Where only one **procedural** benefit is listed, it shall apply to any physician rendering the service, regardless of specialty.

(b) **Specialists providing primary care in general practice may claim the appropriate visit fees as defined in the Preamble listed under the heading Family Practice and Practice in General. Certain other non specialist services such as counselling and interviews are under the same heading for the use of any physician providing such services.**

(c) Specialists in paediatrics who practice allergy may claim specialist rates for their allergy services regardless of the age of their patients.

34. **Referring Physician's Services:**

(a) For the services rendered prior to an operation, the referring physician should claim on a "fee-for-service basis", for example:

(i) Home, Office or Hospital Visits as rendered.

(ii) In addition to (i) above, in acute cases, benefits may be claimed for detention if applicable and appropriate (refer to paragraph 24, above).

(b) (i) For services rendered as an assistant during the operation, the referring physician should claim in accordance with paragraph 35, below.

(ii) In cases in which the referring physician is required to be present in the interest of the patient but does not actually assist at the surgical procedure, he should claim a hospital visit for this service.

(c) For the services rendered after the operation, the referring physician may claim on the basis of supportive care as outlined in the Schedule.

35. **Assistants' Services:**

(a) Time units are computed by allowing one unit ($6.92) for each 15 minutes or part thereof of time (up to two hours) spent by the assistant. Time units for assistants' services for periods in excess of two hours per case are computed by allowing two units for each 15 minutes or part thereof. Time for purposes of these calculations includes scrub time and time spent in the operating room. If claims are being made in coded form (see Preamble, part B, paragraph 16), the suffix B should be added to the code for the procedure.

(b) The basic units should be listed separately from the time units on the claim card. Benefits for assistants' services are determined by multiplying the listed basic units and the time units by $6.92. For **all** cases commencing after 5:00 p.m. and before midnight or on **all** Saturdays, Sundays and Holidays, the total benefit for assistant units (basic and time) is increased by 30% (**E400B**). For **all** cases commencing after midnight and before 7:00 a.m., the total benefit for assistant units is increased by **50%** (**E401B**).

PREAMBLE

(c) **When a physician is required to make a special visit to the hospital to assist at surgery, he may charge a special visit premium (C998B) $3.60 for a case commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays or Holidays; (C999B) $7.15 for a case commencing after midnight and before 7:00 a.m. any night of the week. These premiums are in addition to E400B and E401B premiums but apply only to the first patient treated on each special visit.**

(d) When multiple or bilateral surgical procedures are done during the same anaesthetic, the assistant's benefits shall be based on the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the assistant shall be entitled to receive full assistant's benefits for each procedure.

(e) In surgical procedures requiring more than one assistant, benefits for the second assistant shall be computed on the same basis as for the first assistant.
Each claim for second assistant should be accompanied by a statement from the operating surgeon confirming the necessity for his/her services.

(f) When a surgeon requires an assistant at a procedure for which no assistant's units are listed, the assistant may calculate the total benefits applicable by taking the number of basic units used by the anaesthetist, adding his time units and multiplying the total number of units by $6.78. (See also (g) below.)

(g) When assistants at surgery claim for procedures for which no assistants' units have actually been listed in the Schedule, the assistants should support their claims with **a statement of explanation from the surgeon, confirming the medical necessity** for their attendance.

(h) Where the attendance of a physician is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care, and when the physician is in constant attendance, the benefits shall be based upon 3 units plus time **(E003B)**.

(i) When an anaesthetic has begun and the operation is cancelled prior to commencement of surgery, the assistant who has scrubbed but is not required to do more, should claim 3 basic units plus time units **(E006B)**. If the operation is cancelled after surgery has commenced, the procedural basic unit plus time units will apply. If the procedure is cancelled prior to the induction of anaesthesia and the assistant is scrubbed, a subsequent hosptial visit only may be claimed.

36. **Anaesthetists' Services:**

(a) Benefits for anaesthetists' services are for all types of anaesthesia. The rates listed are for professional services, including pre-anaesthetic evaluation and post-anaesthetic follow-up and all immediate supportive measures, and does not include the cost of materials used. If an anaesthetist is asked by a physician to see a registered bed patient in consultation more than 36 hours prior to the administration of an anaesthetic, he may claim for a consultation as well as for rendering the anaesthetic. (This consultation is not a substitute for the pre-anaesthetic evaluation.) If an anaesthetist examines a patient prior to surgery and the surgery is cancelled prior to the induction of anaesthesia,

PREAMBLE

he may claim a subsequent hospital visit for this service. When an anaesthetic has begun and the operation is cancelled due to a complication prior to the commencement of surgery, the anaesthetist should claim 4 basic units plus time (**E006C**). If the operation is cancelled after surgery has commenced, the procedural basic units plus time units will apply.

(b) Basic units are listed for most procedures and include the value of all anaesthetic services except the actual time spent administering the anaesthesia, any modifying factors, or unusual detention with the patient (see paragraph 24, 36(l) below).

(c) Except during maintenance of continuous conduction anaesthesia (G247 pg 100, P015 pg 109), time units are computed by allowing one unit for each 15 minutes or part thereof of anaesthesia time (up to two hours). Following the first two hours of anaesthesia, time units for periods in excess of two hours are computed by allowing two units for each 15 minutes or part thereof. Anaesthesia time begins when the anaesthetist is first in attendance with the patient for the purposes of creating the anaesthetic state and ends when he is no longer in personal attendance (when the patient may be safely placed under customary post-operative supervision).

(d) Time units and listed basic units should be indicated separately on the claim card. Benefits for anaesthetists' services are determined by multiplying the basic and the time units by $7.77 for certified anaesthetists and $7.33 for non-certified anaesthetists. For cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for anaesthetic units (basic and time) is increased by 30% (**E400C**). For cases commencing after midnight and before 7:00 a.m., the total benefit for anaesthetic units is increased by 50% (**E401C**).

(e) **When a physician is required to make a special visit to the hospital to administer an anaesthetic, he may charge a special visit premium of $3.66 (C998C) for a case commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, or $7.15 (C999C) for a case commencing after midnight and before 7:00 a.m. any night of the week. These premiums are in addition to E400C and E401C premiums, but only apply to the first patient treated on each special visit.**

If claims are being made in coded form (see Preamble, part B, paragraph 16) the suffix C should be added to the code for the procedure.

(f) In special cases where the anaesthetic services of more than one anaesthetist are deemed necessary in the interest of the patient the benefits shall be increased by 50% of that computed for the procedure; each anaesthetist to be entitled to one half of the total benefit.

(g) When multiple or bilateral surgical procedures are done during the same anaesthetic, the anaesthetic benefits shall be based upon the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the anaesthetist shall be entitled to receive full anaesthetic benefits for each procedure.

(h) In procedures where no units are listed or with I.C., the basic units will be based upon those listed for a comparable procedure considering region and modifying conditions or techniques.

PREAMBLE

(i) When a pump with or without an oxygenator and with or without hypothermia is employed in conjunction with an anaesthetic, the anaesthetic "Basic" will be 28 units; this replaces the listed basic units for the procedure. To compensate for variations in anaesthetic practice, special respiratory intensive care or detention for the purpose of intensive treatment of other types may be claimed separately under the appropriate headings.

(j) An additional 10 units may be claimed when, in association with anaesthesia, "controlled hypotension" is carried out using any technique to deliberately lower and maintain the mean blood pressure at least 25% below the range or normal for that patient. The extra 10 units may be claimed under code **E004C.**

(k) When unusual detention with the patient before or after anaesthesia is essential for the safety and welfare of such patient, the necessary time will be valued on the same basis as indicated for the anaesthetic time.

(l) For detention not associated with anaesthesia detention rates and criteria apply (see paragraph 24 above).

(m) When the attendance of the anaesthetist is requested by the patient's other medical attendants for the purpose of monitoring or special supportive care, and when the anaesthetist is in constant attendance the benefits shall be based upon 3 units plus time. If claims are coded, the code is **E003C.**

(n) No additional claim should be made for introducing a catheter for continuous conduction anaesthesia, i.e. above the basic of 5 units plus **hospital visits rendered for maintenance and supervision (to a maximum of four hospital visits)** plus the number of time units required for the **final** delivery.
When hospital visit(s) is rendered for maintenance and/or supervision of continuous conduction anaesthesia or analgesia after 5:00 p.m. and before midnight, an additional 30% **(E402A)** may be claimed with that visit (P015A or G247). When a maintenance and/or supervision visit occurs after midnight and before 7:00 a.m., an additional **50%** may be claimed **(E403A)** with **P015** or G247.

(o) When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only. However, when a physician administers a pudendal, femoral, intercostal, sciatic, ilioinguinal or iliohypogastric block in addition to performing a procedure, he may charge $7.15 **(G224)** in addition to the fee for the procedure.

(p) When hypothermia is used by the anaesthetist in procedures not specifically identified as requiring hypothermia, the basic value is 25 units. This basic value replaces the basic value listed in the Schedule for the procedure. When the basic value claimed is 25 units, the anaesthetic service may be claimed under code **E002C.**

(q) When one anaesthetist starts a procedure and is replaced by another part way through a surgical procedure or delivery, the first anaesthetist should claim the appropriate basic units plus time units and the second anaesthetist may claim for time units only. The second anaesthetist should use code **E005C** for such time units except in the case of continuous conduction anaesthesia; **in the latter case, hospital visits apply (see para 36(n)).**

PREAMBLE

E005C qualifies for the surcharge E400C or E401C only if the case originally started within the time stated under paragraph 33(f) above. Each anaesthetist should state on his claim card which part of the anaesthetic is being claimed and the time begun and completed.

(r) General anaesthesia for the purposes of this Schedule includes all forms of anaesthesia except local infiltration.

PREAMBLE

APPENDIX C

"EMERGENCY DEPARTMENT" CLAIMS

PHYSICIAN ON DUTY

The listings under the heading "Emergency Department—Physician on Duty" are meant to apply only to those circumstances wherein either **emergency** or other physicians have elected **or** are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time.

When the Physician on Duty is required or elects to remain at the hospital, the special call surcharge will not apply. Use the "Emergency Department — Physician on Duty" listings for all physicians regardless of specialty.

When **an emergency physician** is required to make a special visit to the Emergency Department prior to or after his regular arranged designated period of time on duty, he may claim the appropriate benefit under the General Listings plus the applicable special visit premium for the first patient assessed; all subsequent patients assessed during this visit to the hospital should be claimed under the Emergency Department—Physician on Duty listings.

When a physician is on duty in the Emergency Department, sees a patient and admits the patient to hospital, this physician may claim a minor or multiple systems assessment depending upon the service initially provided. Either the patient's attending physician or the emergency department physician (but not both) may render and claim the hospital "admission assessment". If the emergency department physician instead of the attending physician provides the admission general assessment, he may claim a general re-assessment (**C004**) as well as the initial assessment provided that both services are rendered separately.

SPECIAL VISIT TO EMERGENCY OR O.P.D.

Consultation

1. Consultation, patient not admitted:
   The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) may be claimed.
2. Consultation, patient admitted:
   (a) The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) followed by hospital visits (if rendered) may be claimed. However, if the consultant also is the "most responsible physician", he may not also claim a hospital in-patient consultation, repeat consultation, general or specific assessment, general or specific reassessment since the initial consultation rendered in the emergency department serves as the admission assessment.

   (b) If the consultant is not also the most responsible physician, the latter may claim the appropriate admission assessment.

PREAMBLE

Assessment:

1. Assessment, patient not admitted —
   The benefit for the assessment (or re-assessment) plus the appropriate special visit surcharge (K99-) may be claimed.

2. General/specific assessment plus patient admission —
   The benefit for the general or specific assessment plus the appropriate special visit surcharge (K99-) followed by hospital visits may be claimed. However, the admitting physician may not also claim a hospital in-patient general/specific assessment or reassessment since the initial general/specific assessment rendered in the emergency department serves as the admission.

3. Minor/intermediate assessment plus patient admission —
   The benefit for the minor or intermediate assessment plus the appropriate special visit surcharge (K99-) may be claimed. In addition, the admitting physician may claim for a hospital in-patient general or specific reassessment if rendered.

Procedure:

Except for procedures for which the listed benefits specifically include the associated consultation or other assessment, claims may be made for both the procedure and the assessment.

Note:

If a physician has an office in the hospital and is called to assess a patient in the Emergency Department or O.P.D., the special visit premiums do not apply.

PREAMBLE

APPENDIX D

1. Surgery to alleviate significant physical symptoms or to restore or improve function to any area altered by disease, trauma or congenital deformity normally is a benefit under The Ontario Health Insurance Plan. Surgery solely to alter or restore appearance is not a benefit of OHIP except under the circumstances as listed in the following policy.

2. Emotional, psychological or psychiatric grounds are not considered sufficient reason for OHIP coverage of surgery for alteration of appearance except under exceptional circumstances. On request of the attending physician, exceptions may be made on an independent consideration basis if the proposed surgery is to alter a significant defect in appearance caused by disease, trauma or congenital deformity, *and* if the surgery is

   —recommended by a Mental Health Facility (as designated by The Mental Hospitals Act) or equivalent, or

   —recommended by a Correctional Institution, or

   —essential in order to obtain employment as documented by the attending physician *and* either by a Canada Manpower Employment Centre or by an employer with regard to a specific job, or

   —performed on a patient who is less than 18 years of age and the defect is in area of the body which normally and usually would not be clothed.

3. In establishing this policy, it has been recognized that

   —peer acceptance in our society often is influenced disproportionately by the facies,

   —children are especially susceptible to emotional trauma caused by physical appearances,

   —some procedures traditionally have been accepted as benefits of Health Insurance Plans inspite of the obvious cosmetic nature of these procedures.

4. Surgery to revise or remove features of physical appearance which are familial in nature is not a benefit of OHIP.

5. Within the context of this policy, the word "disease" does not include the normal sequelae of aging. Surgery to alter changes in appearance caused by aging is not a benefit of OHIP.

6. Within the context of this policy, the word "trauma" includes trauma due to treatment such as surgery, radiation, etc.

7. The phrase "reasonable period of convalescence" admittedly is imprecise, but it does not seem reasonable to set a definite time interval of convalescence following each procedure. Independent consideration will be given to the questionable cases.

8. Authorization from OHIP is not required for all surgery to alter appearance. It is required only for those categories of procedures for which some cases may not be a benefit under OHIP policy.

PREAMBLE

APPENDIX D

Surface Pathology

1. **Trauma Scars**

   (a) Neck or Face

   —Includes ears and non-hair bearing areas of the scalp.

   —Repair of all such scars is a benefit of OHIP.

   —Repair procedures will depend upon the lesion but may include excision, revision, dermabrasion, etc. Rhytidectomy procedures to remove scar prominence, however, are not a benefit of OHIP.

   —OHIP authorization for repair of such scars is not required but manual assessment of the claims will be necessary to ensure that the most appropriate procedure codes are used.

   (b) Scars in other Anatomical Areas

   —Repair of scars which interfere with function or which are significantly symptomatic (pain, local irritation, etc.) is a benefit of OHIP.

   —Scars with no significant symptoms or functional interference

   (i) Repair is a benefit if such repair is part of a pre-planned post-traumatic (including post-surgical) staged process. OHIP notification must be included as part of the planning process.

   (ii) Other post-traumatic scar revision is not a benefit of OHIP.

   —OHIP authorization is required for all scar repair procedures in areas other than the face or neck.

2. **Keloids**

   (a) Head or Neck

   —The repair of all such keloids is a benefit of OHIP.

   —Repair procedures may include excision and/or injection.

   —Although no pre-authorization is needed, claims for excision of keloids are assessed manually to ensure that the most appropriate code is used.

   (b) Excision of keloids in other areas

   —Not a benefit of OHIP unless significantly symptomatic or there is functional impairment.

   —OHIP authorization is required.

3. **Tattoos**

   (a) Face or Neck

   —Excision or destruction of all such tattoos is a benefit of OHIP.

   —Authorization is not required but adjudication of repair procedures will be identical to that for scars in these areas.

   (b) Other Anatomical Areas

   —Excision or destruction of concentration camp or P.O.W. tattoos is a benefit of OHIP. Otherwise, normally not a benefit of OHIP.

PREAMBLE

4. **Benign lesions such as naevi, keratoses, spider naevi, papillomata, neurofibromata**

(a) Face or Neck

—Excision or destruction of these lesions is a benefit of OHIP.

—Authorization is not required.

(b) Other Anatomical Areas

—Normally not a benefit of OHIP if removed for alteration of appearance, only, rather than for medical necessity or because of clinical suspicion or evidence of malignancy.

—Removal of very large lesions in patients less than 18 years of age is a benefit of OHIP.

—Authorization is not required but a statement of the reason for removal must accompany the claim.

5. **Hair Loss**

(a) Head or Neck

(i) Patients less than 18 years of age

—Repair is a benefit for non-hereditary etiologies.

—Authorization is not required. However, if it is possible that a planned staged procedure will extend beyond the age limit, pre-authorization should be obtained, since it will be necessary after the 18th birthday.

(ii) Post-traumatic

—Repair to the area of traumatic hair loss is a benefit of OHIP only if carried out within a reasonable period of convalescence.

—OHIP authorization is required.

(iii) Other Etiology

—Not a benefit of OHIP.

(iv) Usual repair procedures may include skin shifts or flaps, skin grafts, or hair plugs.

(b) Other Anatomical Areas

—Not a benefit of OHIP.

6. **Epilation of Hair**

(a) Face

—This procedure is a benefit of OHIP only for those patients with documented endocrine abnormality or drug-induced hirsuitism.

(b) Other Anatomical Areas

—Not a benefit of OHIP.

(c) —OHIP authorization is required.

PREAMBLE

7. **Redundant Skin**

(a) Excision of redundant skin for elimination of wrinkles, etc. is not a benefit of OHIP.

(b) Blepharoplasty is not a benefit of OHIP unless there is documented evidence of medical necessity such as visual field defect caused by the redundant eyelid skin.

(c) OHIP authorization is required.

Sub-Surface Pathology

1. **Congenital deformities**

(a) Head or Neck

—Repair is a benefit of OHIP except for:

—surgery to revise or remove features which are familial in nature.

—surgery to correct "outstanding ears" in patients who are eighteen years of age or over.

—Authorization is not required but manual assessment of the claims will be necessary to ensure that the most appropriate procedural codes are used.

(b) Other Anatomical Areas

—Normally not a benefit of OHIP if surgery is for alteration of appearance only.

2. **Post-Traumatic Deformities**

—Reconstructive procedures are a benefit at the acute stage; within a reasonable period of convalescence; or if part of a pre-planned staged process of repair.

—Repair of procedures may include bone revision, tissue shifts and grafts, prosthesis implantation, etc.

—OHIP authorization is required for repairs beyond the acute stage.

3. **Deformities resulting from local disease**
(such as loss or distortion of bone, muscle, connective tissue, adipose tissue, etc.)

(a) Head or Neck

—Reconstructive procedures for significant abnormalities are a benefit at the acute stage; during a chronic disease process; within a reasonable period of convalescence; or if part of a planned staged process of repair initiated during one of these periods.

—Repair procedures normally could include tissue grafts, flaps or shifts, bone revision, prosthesis insertion, etc.

—Face lifts, modified face lifts, brow lifts, etc. are not a benefit of the Plan if skin, only, is involved in the procedure. However, a repair such as ptosis repair or face lift with underlying slings is a benefit of OHIP if the procedure is to correct significant deformity following stroke, cancer, VIIth nerve palsy, etc.

—OHIP authorization is required for repair of deformities resulting from local disease.

PREAMBLE

(b) Other Anatomical Areas

—Not a benefit of OHIP if the correction is for appearance, only.

4. **Breast Surgery**

(a) Augmentation Mammoplasty

—This procedure is a benefit of OHIP unilaterally or bilaterally for a female patient with breast aplasia.

—It is an OHIP benefit unilaterally for a female patient with a severely hypoplastic breast when the other breast is not also hypoplastic.

—A "balancing" augmentation mammoplasty may be allowed on an independent consideration basis for correction of unilateral hypoplasia when performed in association with approved contralateral reduction mammoplasty.

—The correct code for the repair procedure is R112.

—OHIP authorization is required.

(b) Post-Mastectomy Reconstruction

—Unilateral or bilateral breast reconstruction is a benefit of OHIP when the procedure is subsequent to, as listed in the Schedule of Benefits, total or partial mastectomy (including wedge resection) or prophylactic mastectomy.

—Authorization is not required but all claims are manually assessed to determine the benefit appropriate to the procedure rendered.

(c) Reduction Mammoplasty

—**Reduction Mammoplasty** is a benefit for female patients only, where there is significant associated symptomatology such as intertrigo, neck or back pain or shoulder grooving. Ptosis and/or size are not sufficient grounds for OHIP coverage of reduction mammoplasty

—Unilateral Reduction Mammoplasty may be a benefit of the Plan if there is gross disproportion present, or in association with approved unilateral augmentation mammoplasty or post mastectomy reconstruction of the contralateral breast.

—OHIP authorization is required.

(d) Male Mastectomy

—This procedure is a benefit of the Plan.

—The appropriate code for the procedure is R115 or R116.

—Authorization is not required.

(e) Accessory breasts or accessory nipples

—Excision of such accessory tissue is a benefit of the Plan.

—The appropriate code should be used from the Schedule listings under Skin and Subcutaneuous tissue.

—Authorization is not required.

PREAMBLE

APPENDIX D – Cont'd

5. **Excision of excess fatty tissue**

—This is a benefit of the Plan only if there is significant associated symptomatology such as intertrigo, pain or excoriations.

—When performed for alteration of appearance, the removal of redundant skin and fat, from the abdomen, extremities, etc. is not a benefit of the Plan.

—OHIP authorization is required.

Sex-Reassignment Surgery

(1) Sex-reassignment surgical procedures are a benefit of OHIP only if they are performed on patients who have completed the Gender Identity Clinic program operated by the Clarke Institute of Psychiatry in Toronto. Moreover, claims are accepted for payment only for those patients for whom the Clinic has recommended that surgery take place. This surgery need not take place in Toronto or even in Ontario. Surgery recommended by the Clinic which takes place outside the Province of Ontario may be approved for payment at rates in accordance with the current OHIP Schedule of Benefits.

(2) Within the foregoing guidelines, reconstruction of genitalia and mastectomy are benefits of the Plan. However, since the hormonal treatments associated with sex-reassignment themselves give rise to breast enlargement, augmentation mammoplasty or breast reconstruction in a male to female conversion normally would not be a benefit of OHIP, in keeping with the previously outlined policy regarding breast surgery in females.

(3) OHIP authorization is required.

Complications and/or Revisions

(1) The treatment of acute medical or surgical complications resulting from surgery for alteration of appearance and/or function is a benefit of the Plan whether or not the original surgery was covered by OHIP. This includes complications resulting from trans-sexual surgery (such as breakdown of the artificial vaginal wall). No authorization is required.

(2) Revision of surgery for alteration of appearance, because of undesirable results, is a benefit of the Plan if the original surgery was a benefit *and* if the revision either is part of a pre-planned staged process or occurs within a reasonable period of convalescence. Correction of the effects on appearance which are due to complications, is a benefit of the Plan if it is carried out within a reasonable period of convalescence. OHIP authorization is required only if the original surgical procedure, if it had been carried out at the time of the proposed revision, would have required such authorization. For example, authorization would not be required for revision in a 16-year-old of a repaired congenital ear deformity. However, if the child is 18 years or older at the time of the revision, authorization would be required.

PREAMBLE

APPENDIX E

REGULATIONS FOR EMPLOYMENT OF A LOCUM TENENS

A Locum Tenens

(a) Must replace the employing physician, who must be absent from the practice.

(b) Must replace the employing physician for a continuous period up to a maximum of 12 weeks, with an extension on request for a further 6 weeks.

(c) Must be the same specialty as the employing physician.

(d) Must be licensed by the College of Physicians and Surgeons of Ontario in a category of licence that allows him or her to practice independently without supervision.

Prior notification must be given to OHIP of the name and OHIP physician number and/or licence number of the locum tenens and the exact dates of employment, together with an authorization from the locum tenens to make payment for his or her services to the employer.

If these conditions are met, the locum tenens may sign the employing physician's claim cards.

If any of the above conditions are **not** met, the physician involved must submit claims to OHIP on his or her own claim cards.

NUCLEAR MEDICINE — IN VIVO

Column T — is the technical benefit for the production of records, radiopharmaceutical agents, apparatus, premises, technical services, administration and secretarial services.

Column P_1 — is the professional benefit for supervision of the procedure, appropriate patient interview and/or examination, correlation of related data, interpretation of results, and provision of a written report. **The physician need not be continuously present in the nuclear medicine department or private facility while the procedures are being carried out but must be physically present frequently enough to carry out the appropriate patient interview and/or examination and approve, modify or intervene in the procedures as required.**

Column P_2 — is the professional benefit for interpretation of results and provision of a written report. If the physician **does not meet the criteria for P_1** or if any visit is claimed in conjunction with that Nuclear Medicine procedure, the lesser professional benefit (P_2) should be claimed.

Notes: (1) The total benefit is arrived at by adding T plus P_1 (first code listed, e.g. Z006) or by adding T plus P_2 (second code listed, e.g. Z925).

When coding the total benefit use suffix A
When coding the technical portion only use suffix B
When coding the professional portion only use suffix C.

(2) If quantification or data manipulation is carried out in addition to visual inspection of imaging studies, add 30% to the appropriate professional benefit. Such activity must add significant diagnostic information not available by inspection alone and does not include simple image enhancement techniques such as smoothing, background subtraction, etc. Recording of images on videotape for replay and production of images on the video display of a computer do not in themselves justify the additional benefit.

For services for which this additional 30% is appropriate the correct code prefix is Y instead of Z. For example for Arteriography plus data manipulation, the appropriate codes are Y006/Y925 instead of Z006/Z925.

The benefits for cardiac wall motion studies and calculation of ventricular ejection fraction (Z010 and Z012) already include an allowance for data manipulation. Additional benefits may be claimed **only when additional cardiac quantifications are performed i.e. stroke volume ratio and volume response curves and/or phase analysis.**

(3) If examination of Brain, Lung, Liver or Spleen is limited to one view, the benefit (T and P_1 or P_2) is to be reduced by 50% (use codes Z036/Z957, Z041/Z935, Z080/Z990 respectively).

(4) Repeat studies on the same day may be claimed only after exercise or drug intervention.

(5) The phrase "nuclear medicine specialist" should be interpreted as "nuclear medicine physician", since not all physicians practising nuclear medicine are certified as specialists in this discipline by the Royal College of Physicians and Surgeons.

(6) See also Preamble, part B, paragraph 1(h), 1(i) and 1(j).

CLINICAL PROCEDURES ASSOCIATED WITH DIAGNOSTIC NUCLEAR MEDICINE PROCEDURES

Such procedural benefits are intended for the professional service of placing an instrument or introducing diagnostic radiopharmaceuticals. They are not intended to be used for simple subcutaneous, intramuscular or intravenous injection nor for oral administration. Rather than double listing the procedures and benefits in this part of the schedule, physicians are directed to the following reference points in the schedule.

(a) Intravenous injection for peripheral venography — G376 or G379 on page 99.

(b) Intra-articular injections — G370 on page 98.

(c) Injection into CSF spaces or shunt apparatus — Z821 on page 217.

(d) Arterial puncture — G479 on page 89.

DIAGNOSTIC RADIOLOGY

Column T — The benefit for radiological examination including the production of radiographs, supplying of contrast media, apparatus; premises, technical services, administration and collection costs.

Column P — The benefit for consultation between radiologist and referring physician, fluoroscopy, interpretation of radiographs and fluoroscopic findings and supervision of x-ray services by a radiologist.

From 1980 to 1982 OHIP paid a surcharge on the technical fees to private radiology clinics in recognition of the increase in film cost.

Hospital out-patient technical fees will be paid at 94.17% of the technical fee listed in the Schedule of Benefits.

Notes and Interpretations:

1. Private offices and hospital outpatient departments will claim the sum of Columns T plus P.

2. Radiologists should use Column P as a guideline for negotiating remuneration with hospitals.

3. Benefits for clinical procedures related to x-ray examination are listed in the following section, or under Diagnostic and Therapeutic or Surgical Procedures. "Clinical Procedures", in this context, are those by which contrast media are introduced, except oral or rectal administration for study of the alimentary tract, and intravenous injections, which are an integral part of the study, performed by the physician collecting the benefit for the procedure.

4. If less than the minimum number of views are performed, reduce listed benefits by 25% (this reduction applies to both technical and professional component). If more than the minimum number of views are performed, no further benefit is applicable unless specifically listed.

5. If the examinations which are requested by the referring physician yield abnormal findings or if they would yield information which in the opinion of the radiologist would be insufficient, governed by the needs of the patient and the requirements of the referring physician, the radiologist may add further views and claim for them (if listed).

6. Claims for X-ray services, when referred by an Osteopath, Chiropodist or Chiropractor to a private X-ray facility are not benefits of O.H.I.P.

7. Claims for X-ray services, when referred by an Osteopath or Chiropractor to a hospital outpatient department are benefits.

8. Coding

—When coding the total benefit use suffix A.

—When coding the technical portion only use suffix B.

—When coding the professional portion only use suffix C.

—When coding claims from certified radiologists (33) use the listed codes (i.e. X001-X230) plus the appropriate suffix.

—When coding claims from non-certified radiologists increase the first numerical digit in the listed codes by 5 (i.e. X501-X730) plus the appropriate suffix.

9. When a radiologist is asked to x-ray one extremity only, no additional claim should be made for comparison x-rays initiated by the radiologist.

10. Nephrotomography is covered by the listings for intravenous pyelogram and planigram.

11. A stereo pair is to be counted as two views.

DIAGNOSTIC RADIOLOGY

12. No extra claim should be made for rapid sequence I.V.P.

13. No additional claim is warranted for the use of the image intensifier in diagnostic radiology.

14. Fluoroscopy claims should not be submitted for any examination performed by the radiologist where "fluoroscopy" is generally regarded as an integral part of the examination, e.g. examinations of the G.I. tract, urinary tract, special procedures.

15. "Colon — air contrast" may be claimed when performed according to generally accepted criteria. The colon should be scrupulously prepared. Five to eight full size views of the abdomen should be obtained after fluoroscopically controlled introduction of air and barium.

16. "Oesophagus, stomach and duodenum, double contrast" presupposes the introduction of gas, the use of antifoam agent and a suitable barium mixture.

17. Abdomen and chest studies should not be routinely done and claimed in gastrointestinal examinations.

18. Three or more views of the chest should not be done routinely and claimed when a chest examination is requested.

19. Chest studies should not be routinely done and claimed in mammography cases.

20. Nasal bones or accessory nasal sinuses should not be routinely claimed in skull examination requests.

21. Abdomen and/or pelvis should not be routinely claimed in lumbar spine examination requests.

22. A survey film of the abdomen is a single view. The ordering of additional films should be left to the discretion of the radiologist who should determine which examination is adequate for a specific patient. Obviously, if progress of a long tube is being followed, a survey film is sufficient. If, however, an intestinal obstruction is being followed, a single film is usually inadequate.

23. Conventional films of the spine should not be routinely done and claimed before myelography. The necessity of having plain film studies of the spine prior to interpreting the myelographic studies is obvious. It is not essential, however, that these be done at the institution where the myelogram was done. If they had been done at an outside office, then it is a matter for the radiologist and the referring physician to have the films available. If they cannot be made available to the radiologist, it is an acceptable practice for him to do the required examination of these areas and to claim for them so that they may be available for interpretation along with the myelographic study.

24. Pharynx and oesophagus (cine or videotape) — X106 should not be claimed routinely with X108 and X109 but only when specifically indicated.

25. Lumbar or lumbosacral spine (X028,) does not include the entire sacrum. However, an examination of the sacrum may be carried out and claimed only when specifically indicated.

26. A maximum of two computed tomography examinations per patient, per day, may be claimed.

27. The listed benefits apply to unilateral examinations except for central structures or as otherwise specified.

CLINICAL PROCEDURES ASSOCIATED WITH DIAGNOSTIC RADIOLOGICAL EXAMINATIONS

Note: 1. These procedural benefits are intended to cover compensation for the professional service of placing an instrument and, if done, of introducing contrast media (except oral or rectal administration for study of the alimentary tract). Injection of materials to enhance the effect of contrast media is included in the procedure benefits.

2. Radiological charges are additional: see similar entries under section on RADIOLOGY.

3. Where similar procedures are done for diagnostic physiological studies of non-radiological nature, e.g. cardiac catheterization or intra-arterial infusion, they are listed separately under Surgery or Diagnostic and Therapeutic Procedures. See Index.

Column T — The benefit for testing including supplying of equipment, premises and technical services.

Column P — The benefit for professional services including responsibility for quality control and technician training, interpretation of the results of the tests, and consultation between the physician responsible for the tests and the referring physician concerning the results of the tests.

Notes:
(1) The total benefit is obtained by adding columns T and P together.

DIAGNOSTIC ULTRASOUND

Notes: (1) T and P Columns should be interpreted in the spirit of the first two paragraphs on page 63, but without limiting the performance of these tests to physicians of any one specialty.

(2) The total benefit is obtained by adding columns T and P together.

(3) Coding: When coding the total benefit, use suffix A.
When coding the technical portion only, use suffix B.
When coding the professional portion only, use suffix C.

(4) A-Mode — implies a one-dimensional ultrasonic measurement procedure.

(5) M-Mode — implies a one-dimensional ultrasonic measurement procedure with movement of the trace to record amplitude and velocity of moving echo-producing structures.

(6) Scan B-Mode — implies a two-dimensional ultrasonic scanning procedure with a two-dimensional display.

(7) All ultrasound examinations include a permanent record and interpretive report.

DIAGNOSTIC AND THERAPEUTIC PROCEDURES

Code With a few exceptions specifically indicated below, the listed procedural benefits are for the procedure(s) alone.

Consultations or visits when such services are rendered, may be claimed in addition to the procedure(s).

G700 When a procedure(s) is the sole reason for a visit, add $3.60 per patient visit for those procedures marked (+) regardless of the number of procedures carried out during that visit. However, if the patient visit is to a physician's office or a diagnostic facility controlled directly or indirectly by a physician who has examined (or is about to examine) the patient and referred the patient to such a diagnostic facility, G700 may not be claimed under these circumstances.

Note: G700 is not payable to a hospital department.

Schedule Interpretations:

1. **Urinalysis and other diagnostic tests, listed on page in the Diagnostic and Therapeutic Section of the Schedule of Benefits when performed by a physician, with or without an associated visit to the physician's office, should be claimed exclusively from these listings.**
Similar services listed in the Laboratory Medicine Section of the Schedule are to be claimed by licensed laboratories only.

2. Some benefits for Diagnostic and Therapeutic Procedures have the technical and professional components listed separately. However, when only one benefit is listed for a service, it represents the professional component only. The technical component includes the salaries of support staff, equipment depreciation or lease costs, supplies and costs associated with the preparation of a written report. The professional component includes the clinical supervision of the diagnostic facility, interpretation of the test results and a written report.

3. The Preamble applicable to Surgical Procedures also applies, where appropriate, to Diagnostic and Therapeutic Procedures.

ALLERGY

Note: If, in addition to the allergy injection, the patient requires a minor assessment only of his allergic condition, the physician may claim for code G212 only. However, if a patient requires a more complete assessment of his condition or if a patient presents for an allergy injection and has an acute infectious condition, albeit of the respiratory system, or some other unrelated condition any of which would have otherwise required a separate office visit, the physician is entitled to claim for the appropriate assessment as well as the injection.

OBSTETRICS

1. Obstetrical care is divided into its components. A prenatal **major** assessment **when performed** may be claimed and shall comprise a full history, an inquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient. Subsequent prenatal visits shall comprise the necessary history and inquiry, examination, appropriate record, pregnancy related counselling and advice to the patient. Normal (uncomplicated) prenatal care includes a prenatal general assessment visit, then monthly visits to 32 weeks, followed by visits every 2nd week to 36 weeks, then weekly visits until delivery. However, complicated pregnancies may require additional visits. Labour — delivery and postpartum care are listed separately.

2. If an uncomplicated obstetrical patient is transferred from one physician to another physician for obstetrical care, the appropriate assessment fee may be charged by the second physician, followed by prenatal visit fees. **This statement does not apply to physicians substituting for each other or when the second physician sees the patient for the first time in labour.** If the obstetrical patient is referred to a consultant for obstetrical care because of the complexity, obscurity or seriousness of the case, the consultant may claim for a consultation in addition to the prenatal visit benefits.

3. Illnesses resulting from or associated with pregnancy or false labour requiring added home or hospital care should be claimed on a per visit basis.

4. When a pregnant patient visits her physician for a condition unrelated to her pregnancy and apart from her routine scheduled prenatal visits, the physician may charge the appropriate visit benefit.

5. The listings under heading Referred Services may be claimed by the consultant **physician** in addition to the appropriate consultation or visit benefit. They may not be claimed by physicians providing obstetrical care to their own patients.

6. If a consultant is requested by another physician to perform a surgical induction of labour, or emergency removal of **a** Shirodkar suture (except at delivery) assuming someone else has inserted the suture, the consultant should claim a consultation benefit for this (these) service(s).

7. Medical induction or stimulation of labour may be claimed once per pregnancy by any one physician and only when carried out for **a** recognized obstetrical complication(s) and does not qualify for detention benefits.

8. The listings for "Attendance at labour and attendance at delivery" and for "Attendance at delivery" may not be claimed by any physician when a patient is transferred to a second physician for normal obstetrical care.

9. Ordinary immediate care of the newborn is included in the labour-delivery benefit and, when the service is rendered by the anaesthetist, it is included in the anaesthetic benefit. Active resuscitation of the newborn provided by any physician may be claimed under codes G521, G522 (Life Threatening Emergency Situation).

10. When a physician provides newborn care and also performs a circumcision on the same newborn or infant, both services may be claimed.

11. When an obstetrician routinely *transfers* all newborns to the care of another physician, the latter should not claim consultation benefits for these "transferrals". If the baby is well, the physician may claim the newborn care in hospital benefit plus code H267 (page), attendance at maternal delivery (if this service is given). If the baby is sick, the physician may claim for a general assessment and for attendance at maternal delivery (if this service is given) plus daily visits for as long as his/her services are required. If an obstetrician normally cares for

OBSTETRICS

newborns himself or transfers the care of newborns to a general or family physician but refers a newborn to a paediatrician because of the complexity, obscurity or seriousness of the case, the latter may claim for his service according to the following guidelines:

(a) If attendance at maternal delivery is rendered, code H267 may be claimed and, if a general assessment of the baby is carried out, code C263 may be claimed as well. However a post-natal consultation on the baby (C265) may not be claimed in addition to H267.

(b) If a paediatrician has not attended the delivery, a post-natal consultation may be claimed (if this service is rendered) even though a pre-natal consultation may already have been claimed.

12. When a physician provides prenatal visits, attends labour, assists or administers the anaesthetic at Caesarean Section and visits the patient post-operatively, he is entitled to claim for prenatal visits, attendance at labour assistant's or anaesthetist's benefits for Caesarean Section, and postoperative supportive care while the patient is in hospital.

13. Physicians may claim for assisted breech delivery (P020) when the service includes spontaneous delivery to the umbilicus, with extraction of the shoulders, arms and after coming head.

14. The Preamble applicable to Surgical Procedures also applies to obstetricians, where appropriate.

15. The premiums applicable to Obstetrics are as follows: When **deliveries and other obstetrical procedures done in continuity with the delivery** commence after 5:00 p.m. and before midnight or on Saturday, Sundays and Holidays, increase the procedural fee(s) by 20% (E409). When time of delivery occurs after midnight and before 7:00 a.m. any night during the week, increase the fee for delivery and other obstetrical procedures done in continuity with the delivery by 50% (E410). These premiums are not chargeable in addition to the obstetrical procedural fee(s) if labour is induced by medical and/or surgical means by the same physician. However, a forewater A.R.M. or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction.

SURGICAL PROCEDURES

Preamble:

FOR DEFINITION OF THE ROLE OF THE REFERRING PHYSICIAN, SEE REFERRING PHYSICIAN SERVICES ON PAGE

FOR DEFINITION OF THE ROLES OF THE ANAESTHETIST, SEE ANAESTHETIST SERVICES ON PAGE

(1) The surgical benefit (except for fractures or disclocations requiring no reduction and other procedures either marked "I.O.P." or including complete care) includes hospital visits rendered by the surgeon two days prior to surgery, the operative procedure, the post-operative care usually associated with the procedure(s) rendered by the surgeon while the patient is in hospital, and one office visit for follow-up examination, if necessary. If the surgeon is required to provide listed services not usually associated with the procedure(s), he may claim for these. If special visits to hospital are required and rendered, the surgeon may claim the appropriate special visit premium even if the basic hospital visits are not chargeable.

The surgical benefit as noted above does not include the major pre-operative visit (e.g. consultation, general assessment, etc.) at which the decision to operate is made, regardless of the time interval between the major pre-operative visit and the surgery. The hospital or day-surgery admission assessment (consultation, repeat consultation, general assessment or re-assessment, specific assessment or re-assessment) may not be claimed by the surgeon unless it happens also to be the major pre-operative visit as defined above. Visits rendered prior to admission (excluding admission assessments) and hospital visits (minor assessments) rendered prior to two days before the surgery may be claimed in addition to the surgical benefit. For patients remaining in hospital because of complications, visit benefits may be claimed in addition to the surgical benefit after **eight weeks of hospitalization in the case of fractures and dislocations and after** the second post-operative week **for other procedures** The starting point for calculating the appropriate number of hospital visits allowed in accordance with the Schedule after the second **or eighth** post-operative week is the date of admission if the operating surgeon has admitted the patient or the date of referral if the patient has been referred to the operating surgeon while in hospital.

The listed surgical benefit includes the generally accepted surgical components of the procedure. The listed benefit of a procedure normally also includes any necessary repair of iatrogenic damage occurring during the course of the surgery.

(2) When a physician makes a special trip to perform a non-elective surgical procedure during the daytime (Monday to Friday), he may claim the appropriate special visit, a consultation if the case is referred (except for fractures or dislocations requiring no reduction) or the appropriate assessment if the case is not referred plus the procedural benefit(s). When the special visit is to deal with fractures or dislocations requiring no reduction, a minor or partial assessment is the appropriate benefit to be added to the special visit and fracture or dislocation benefits. If the non-elective procedure is carried out at night (after 5:00 p.m. and before 7:00 a.m.), or Saturdays, Sundays and Holidays, the physician may claim a special visit applicable to the consultation or assessment and the surgical premium **E409** or **E410** (see Preamble, Part B, paragraph 23).

(3) When more than one operative procedure (non-I.O.P.) is performed by the same surgeon at the same time and/or under the same anaesthetic or **within 14 days** during the same hospitalization for the same condition, the benefit shall be the full benefit for the major

SURGICAL PROCEDURES

procedure plus 85% of the listed benefit(s) for additional procedures, unless otherwise indicated in the Schedule and except where such combined operations are independently specified as items in this Schedule. This paragraph applies to staged procedures and to each side of bilateral procedures, but does not apply in the case where a normal appendix or simple ovarian or para-ovarian cyst is removed incidentally during an operation, for which no claim should be made (see also OHIP Bulletin #4122, July 3, 1979).

(4) When a subsequent operation(s) becomes necessary for the same condition because of a complication, the full benefit will apply for each procedure.

(5) When a subsequent non-elective operation(s) is performed for a new condition, the full benefit will apply for each procedure.

When a subsequent elective procedure is done for a different condition **within 14 days** during the same hospitalization by the same surgeon, the benefit for the lesser procedure shall be reduced by 15% unless performed by another surgeon in which case the full benefit will apply.

(6) When different operative procedures are done by two different surgeons under the same anaesthesia for different conditions, the benefit will be 100% of the listed benefit for each condition. Under these circumstances, the basic assistants' units should not be claimed by either operating surgeon; however time units may be claimed when appropriate.

(7) As a general rule, when elective bilateral procedures are performed by two surgeons at the same time, one surgeon should claim for the surgical procedures and the other surgeon should claim the assistant's benefit.

(8) Where two surgeons are working together in surgery in which neither a team benefit nor other method of claiming is set out in the schedule, the surgeon should identify himself as the operating surgeon and claim accordingly; the surgeon who is assisting him should identify himself as such and claim the assistant's benefit. Where the second or assistant surgeon is brought into the case on a consultation basis, he may, when indicated, claim a consultation as well but should be prepared to justify it on an I.C. basis. If the nature or complexity of a procedure requires more than one operating surgeon each providing a separate service in his own specialized field, each surgeon may claim the full listed benefit for the procedure he performs. This, however, does not apply to those cases wherein an additional surgeon(s) is involved simply because he may be more skillful at carrying out a procedure which the first surgeon normally should be able to do. Neither does it apply to those cases wherein one or more additional surgeons perform components of a main procedure for which there is a listed combined tariff. For the latter two circumstances, the first portion of this paragraph pertains and the additional surgeon(s) may claim assistant's benefits only, along with consultation and visits if appropriate. If a surgeon, in addition to performing a specialized portion of the procedure, acts as an assistant during the remainder of the procedure, he may also claim time units (but not basic units) for assisting.

(9) Unless otherwise stated, the listed procedural benefits are for unilateral procedures.

(10) When a procedure is performed, a procedural benefit, if listed, should be claimed. Substitution of consultation and/or visit benefits for procedural benefits (except as in paragraph 11), is not in keeping with the intent of the schedule.

(11) For fractures and dislocations requiring no reduction and for other procedures which include complete care, when the listed benefit is less than the consultation benefit and the case is referred, the physician may claim for the consultation instead of the surgical benefit.

SURGICAL PROCEDURES

However, to avoid the consultation being counted as such under the OHIP limitation rules on the number of consultations allowed per year, the physician should claim for the consultation under the surgical procedure nomenclature or code. Since the consultation is replacing a procedural benefit which includes the pre- and post-operative and surgical care, no additional claims beyond the consultation should be made.

(12) If a physician performs a minor surgical procedure and during the same visit assesses and treats the patient for another completely unrelated and significant problem involving another body system, the physician may claim for the procedure as well as for the appropriate assessment.

(13) Where a procedure is specified as "Independent Operative Procedure (I.O.P.)", the procedural benefit may be claimed in full. In addition, visit benefits, consultations etc. may be claimed when both services are actually rendered. When an I.O.P. procedure is done in conjunction with non-I.O.P. procedure(s), no claim may be made for the consultation, pre- and post-operative care related to the I.O.P. procedure. The listed I.O.P. benefit may be claimed in these circumstances along with the benefits for the non-I.O.P. procedure(s) and the related major pre-operative visit in accordance with paragraph (1) of this Preamble. When multiple or bilateral I.O.P. procedures are performed at the same time by the same physician, the listed procedural benefits may be claimed in full but the pre- and post-operative benefits should be claimed as if only one procedure had been performed. **When a patient is examined in a physician's office and this leads to an elective Independent Operative Procedure (I.O.P.) being performed for the same problem or diagnosis by the same physician in the Emergency or Outpatient Department on a non-admission basis, the physician should claim a consultation or visit fee for the examination in the office and the fee for the I.O.P. carried out in the Emergency or Outpatient Department. An additional assessment fee at the time of the elective I.O.P. should only be claimed when an additional assessment is performed.**

(14) When procedures are specifically listed under Surgical Procedures, physicians should use these listings rather than applying one of the plastic surgery benefits listed under operations on skin and subcutaneous tissue.

(15) For excision of tumours not specifically listed in this Schedule, claims should be made on an I.C. basis (code **R993**). Independent consideration also will be given (under code **R990**) to claims for other unusual but generally accepted surgical procedures which are not listed specifically in the Schedule (excluding non-major variations of listed procedures). In submitting claims, physicians should relate the service rendered to comparable listed procedures in terms of time and difficulty (see Preamble, Part B, paragraph 25).

Independent consideration also will be given (under code **R991**) to out-of-Province claims for generally accepted surgical procedures which are not available in Ontario, for which a patient has been referred by an Ontario physician and for which prior approval from OHIP has been obtained. (See OHIP Bulletin #4148)

(16) Cosmetic or Aesthetic Surgery: means a service to enhance appearance without being medically necessary such as surgery for correction of facial wrinkles, surgery for eyelid wrinkles (symmetrical and without a functional problem), rhinoplasty for appearances only, etc. These services are not benefits of OHIP. (See Preamble, Appendix A).

(17) Reconstructive Surgery: is surgery to improve normal appearance and/or function to any area altered by disease, trauma or congenital deformity. Although surgery solely to restore appearance may be included in this definition under certain limited conditions, emotional,

SURGICAL PROCEDURES

psychological or psychiatric grounds normally are not considered sufficient additional reason for OHIP coverage of such surgery.

Appendix D of the Preamble to this Schedule describes the conditions under which surgery for alteration of appearance, only, may be a benefit of the Plan.

Physicians should submit requests to their District OHIP office for authorization of any proposed surgery which may fall outside of OHIP coverage. Among those procedures for which requests *must* be submitted before the procedure is performed are:

(a) augmentation mammoplasty (excluding post-mastectomy breast reconstruction)
(b) blepharoplasty
(c) dermabrasion (excluding face and neck)
(d) epilation of hair
(e) face lift
(f) hair transplant
(g) panniculectomy, lipectomy
(h) reduction mammoplasty
(i) rhinoplasty or septorhinoplasty
(j) scar revision (excluding face and neck)
(k) sex-reassignment surgery
(l) tattoo removal (excluding face and neck)

Requests for authorization of proposed surgery should identify the medical necessity of the surgery. Moreover, since it is the procedure for which the authorization request is being made, it must be adequately described and accurately related to the condition it is intended to alleviate.

Note that when a surgical procedure is not a benefit of the Plan, the associated anaesthetist's charges, assistant's charges and hospital costs normally also are excluded from OHIP coverage.

(18) Procedural benefits (non I.O.P.) include the removal of sutures where both services are rendered by the same physician unless the removal of sutures is done after one office visit for follow up examination has already been provided. If sutures are removed subsequent to the first post-operative office visit, or if they are removed by a physician other than the operating surgeon, or following an I.O.P. procedure, "visit fees" apply.

(19) Additional claims for biopsies performed when a surgeon is operating in the abdominal or thoracic cavity may be given independent consideration.

(20) When a procedure is performed for which only "local anaesthetic" and/or "general anaesthetic" listings appear, and an anaesthetic is not required, the procedure should be claimed under the "local anaesthetic" listing. When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only.

(21) If claims are being submitted in coded form, the surgeon should add the suffix A to the listed procedural code, the surgical assistant should add the suffix B to the listed procedural code and the anaesthetist should add the suffix C to the listed procedural code.

	Simple and uncomplicated			
Z176	— insertion of sutures only		10·00	
U.V.C.	— removal of sutures only (See Surgical Preamble, paragraph (18)		visit fees	
Z178	— extensive, multiple, complicated, primary or secondary (including post-operative haemorrhage) or requiring general anaesthetic — **see following guidelines**		I.C.	4
E542	— when sutures are inserted in private office, add . . .		3·80	

Notes: (1) The benefits for Z176, Z178 include the use of sutures, local anaesthetic, tetanus toxoid and routine observation until the sutures have been removed.

(2) With the accord of the Ontario Medical Association, the following guidelines are suggested to assist in the determination of an appropriate charge to submit for independent consideration under Code Z178 for suture of skin lacerations:

(i) The suturing of most simple lacerations smaller than approximately 4 cm in length should be coded as Z176 (plus E542 if applicable) and claimed accordingly.

SURGICAL PROCEDURES

SKIN AND SUBCUTANEOUS TISSUE – Cont'd

(ii) The suturing of other lacerations should be claimed under code Z178 **(plus E542 if applicable)** on an Independent Consideration basis according to the following guidelines:

(a) The stated benefits are for suturing the laceration only; the appropriate consultation or visits may be claimed in addition.

(b) Simple lacerations with a length **of 4 cm or more,** but less than approximately 8 cm ..... 24·50

(c) Lacerations in difficult area (e.g. lip, eyelid, eyebrow, corner of eye, etc.) or which are deep such that they require tying off bleeders and/or closure in layers (i.e. subcutaneous and cutaneous) ..... $ 24·50

(d) Lacerations involving components of both (b) and (c) ..... $ 49·00

(e) Lacerations requiring extensive debridement, add 50%.

(f) A combination of 2 or 3 lacerations falling within the foregoing guidelines would require individual assessment of each laceration. e.g.: for the suturing of a **6.5** cm scalp laceration requiring tying off bleeders and/or layer closure, a **2.5** cm cheek laceration and 1 cm laceration through the mucocutaneous border of the lip, the benefit claimed could be calculated as follows:

Scalp (d) ..... $ 49·00
Cheek (Z176) ..... 10·00
Lip (c) ..... 24·50
Total (Z178) ..... $ 83·50
(plus the appropriate consultation and visit benefits)

(g) More complicated lacerations should be compared in scope and difficulty with other similar services which have definitive benefits listed in the Schedule.

3. In every case, claims for Z178 should be accompanied by sufficient description of the procedure rendered and an explanation of the charges submitted *(see Preamble, Part B, paragraph 25).*

SURGICAL PROCEDURES

OPERATIONS ON THE MUSCULOSKELETAL SYSTEM

Preamble

(1) Corrective splints must be "corrective" to qualify for benefits. The corrective splint listings are not applicable to simple immobilization such as with a Jones bandage or a metal finger splint following soft tissue injury.

(2) The removal of a wire or pin or other device when used for traction or external fixation (except for the Hoffman apparatus) in the treatment of a fracture or other orthopaedic procedure is to be included in procedural fee. Removal of devices used for internal fixation may be charged for in addition to the procedural fee.

(3) The fee for total hip replacement also includes denervation of the hip joint and adductor tenotomy.

(4) The fee for obtaining a bone graft is not chargeable in cases of pseudarthrosis repair, fusions or for listings in which bone grafting is included.

(5) For the supervision of limb fitting and 6 months post-operative care following amputation, charge visit benefits. Amputation with immediate fitting to include supervision of final limb fitting — add 40% (E586).

Fractures and Dislocations:

(a) The fracture or dislocation fees for services requiring no reduction include the major pre-operative visit. For fractures or dislocations requiring open or closed reduction, the major pre-operative visit i.e. consultation or appropriate assessment may be charged in addition to the listed fees for open or closed reductions.

(b) OPEN REDUCTION shall mean the treatment of a fracture or dislocation by an operative procedure to expose the fracture, or closed intra-medullary fixation, and includes internal or rigid external skeletal fixation except in spinal fractures.

(c) CLOSED REDUCTION shall mean the reduction of a fracture or dislocation by non-operative methods (including traction).

(d) NO REDUCTION shall mean the treatment of a fracture or dislocation by any other method and includes the use of the initial external support.

(e) The stated fee covers full or after treatment up to 8 weeks except if additional reductions are necessary or if patient is transferred to another surgeon or if the patient is paraplegic.

(f) In multiple fractures or dislocations, the benefit for the major fracture or dislocation shall be 100% and the fee for the other fractures or dislocations 85%. When no procedural fee is applicable, but when that fracture or dislocation necessitates hospitalization or concurrent care over that demanded by the major injury, a visit fee will apply in addition to other procedural fees.

(g) For repeat reductions (closed or open) for the same fracture of dislocation the full benefit should be claimed for the final reduction and after care — previous reductions by the same surgeon should be claimed at 85%.

SURGICAL PROCEDURES

OPERATIONS ON THE MUSCULOSKELETAL SYSTEM

(h) Emergency splinting of fractures in the emergency department should be on the basis of the appropriate visit fee, plus application of cast if appropriate.

(i) Transferred cases —

(1) When patients are transferred to a chronic or convalescent facility, additional visit fees on a chronic care basis shall be allowed to other than the operating surgeon (and also to the surgeon after 8 weeks)

(2) When patients are transferred to another physician for after care of fractures and dislocations treated by closed or no reduction, the physician rendering the initial care should charge 75% of the listed fee and the surgeon rendering subsequent care visit fees except where otherwise specified. In cases involving open reduction, the percentage should be 80% for the surgeon providing the initial care.

(j) Paraplegia associated with fractures and dislocations may be billed by charging visit feesafter the first 2 weeks of post-operative care in addition to the appropriate procedural fees.

(k) Pseudarthrosis may be allowed as the appropriate billing fee after the fracture is 4 months old.

(l) For fractures and dislocations not requiring reduction, visit fees apply unless a specific fee is listed. If the listed fee is less than the consultation fee, the consultation fee should be billed under the fracture/dislocation code

Schedule 16

LABORATORY MEDICINE

Note: Claims for laboratory services, when referred by a Dentist, Osteopath, Chiropodist or Chiropractor are not insured services.

PREAMBLE:

1. The patient documentation and specimen handling benefit is applicable to all patients, except for those items listed under the anatomical pathology, histology and cytology sections. The items in this section have been left at a sufficient level to cover administrative costs. This benefit is not applicable to referred-in samples, since the collecting laboratory will already have claimed the patient documentation and specimen collection benefit.

2. The biochemistry section has been condensed so that one listing refers to a procedure for any of amniotic fluid (A), blood (B), C.S.F. (C), faeces (F), gastrointestinal fluid (G), urine (U). Exceptions are indicated by B, U, etc., following the test name. Other specimens will be considered on an I.C. basis.

3. A number of tests are listed in different sections of the schedule, i.e. when more than one method of performing the test is available, e.g. Aminophylline is listed under both Biochemistry and Radioassays. Assays of ligand type other than radioisotopic are listed under Biochemistry.

4. Blood glucose by the dipstick method may be claimed only when assessed by an appropriate instrument such as a reflectance meter. It should not be claimed when used only as a check on the fasting blood sample of a glucose tolerance test. The blood glucose of the fasting sample in a glucose tolerance test is allowable only once even if assessed by two methods.

Note: The standard glucose tolerance test for diagnosis of diabetes mellitus consists of 5 blood specimens taken at 0, 30, 60, 90, and 120 minutes following oral administration of 75g. of glucose. In pregnancy, 4 specimens only are to be taken at 0, 60, 120 and 180 minutes. (L104 and L103).

5. Code L418 or L417 may not be claimed by a physician in addition to claim(s) for any treatment or assessment. However, Code G481 (see page 00 of the 1983 OHIP Schedule of Benefits) may be claimed by a physician if a haemoglobin screen (any method or instrument) is carried out in the course of an office or home visit. Urinalysis G009 G010 may be claimed with or without an associated visit to a physician's office (except for screening and urinalyseswhich are not medically necessary).

6. When a screening culture method (e.g. Agar spoon) is used on a urine sample, L641 refers to a culture technique and does not apply to those kits using the nitrite test only. Where a significant growth is obtained and followed up by definitive identification methods, L633 or L634 only should be claimed. The benefits for L633 and L634 include any necessary microscopic examination of the urine.

7. The Physician assumes responsibility for all cytology smears and the professional benefits (L804 to L815 inclusive) are weighted averages of the professional component. These benefits, therefore, are applicable in each case whether or not all slides are examined by the physician.

8. Only those tests which are requested are to be claimed with the following exceptions. It is intended that if the test results yield abnormal findings or information which would be incomplete, insufficient or meaningless to the referring physician, the medical director of

LABORATORY MEDICINE

a laboratory may add further appropriate tests and claim for them with the knowledge he may have to substantiate their justification.

9. A test must be completed in accordance with the pertinent Schedule listing in order to charge for it. The verbatim listing is intended as the definitive benefit for that test alone, unless otherwise specified e.g. isoenzymes do not include total enzyme estimations: creatine does include creatinine (as specified). Notwithstanding the foregoing and recognizing that it is impossible to list all variations in techniques of all listed tests, when there is a modification of the usual technique, the listing most closely approximating it should be used.

10. This schedule, with the exception of L036, lists actual procedures performed. No claim shall be made for calculated values made and reported, or for control tests or repeat tests on the same patient sample.

11. The benefit for seminal fluid examination (complete) is to include sperm count, volume estimation, motility and morphology and viscosity. The benefit for seminal fluid examination carried out post-vasectomy is not to be claimed by the operating surgeon unless the patient requires more than one office visit post-operatively.

12. Creatinine is a justifiable addition in the case of tests on 24-hour urine samples, where it is necessary to assess the sample as a complete 24-hour collection. However, if several tests (e.g. steroids) are done on a single such sample, only one creatinine should be claimed for that sample. In those estimations where the test result is expressed in terms of creatinine excretion the performance of a creatinine is mandatory and may be claimed.

13. It is recognized that in requests for a serologic titre, if a screening test is used and would suffice, the lesser benefit for the screening test should be claimed. If positive and followed by a serial titration, both the screening and titre fees may be claimed. If the titration is a micro technique using plates, it is the equivalent of a tube titre, the wells being miniature tubes.

14. When a test for trichomonas identification (any method) is carried out in association with L625 or L627, code L653 may be claimed in addition. L653 also may be claimed when Wet Preparation is used for direct examination of a fresh specimen for vegetative amoebae or similar parasites. However, the wet preparation used in the faeces concentration technique for parasites and ova is included in L650.
The conditions set down in paragraph 8 of this preamble must be adhered to.

15. It is recognized that in all laboratory tests there is a professional component.

16. The maximum number of units which may be claimed for any combination of L418 (Hemoglobin), L417 (Hematocrit); L399 (WBC Count) and L397 (RBC Count) is 11 LMS units per patient per day, whether automated, semi-automated or manual methods are used. L700 is not included in this total and may be claimed separately, if appropriate. Laboratories using multichannel equipment should use individual codes as described above.

17. The maximum number of units which may be claimed for any combination of the tests represented by the following codes will be 40 LMS units per patient per day:

L005	L061	L194	L223	L252
L030	L067	L204	L225	
L045	L111	L208	L226	
L053	L191	L222	L251	

This maximum of 40 units applies on a per patient basis, regardless of the number of specimens submitted and regardless of the number of laboratories involved in performing

LABORATORY MEDICINE

the individual tests. Code L700 is not included in this maximum and should be claimed separately, if appropriate.

18. The maximum number of units which may be claimed for any combination of chemical analyses performed on a single sample by means of an automated chemical analyzer with simultaneously functioning channels is 18 LMS units (L225).

19. The definitions and guidelines in this paragraph apply to the Blood Bank section of Laboratory Medicine:
    (a) L471 Antibody Identification — incomplete antibodies. A panel of any number of cells regardless of suspending media or technique used. Preparation of eluate and/or antibody absorption is included.
    (b) L472 Antibody Identification — complete antibodies. A panel of any number of cells for the identification of complete antibodies by direct agglutination.
    (c) L473 Parallel Titration — to be used when two sequential patient serum specimens are tested to detect a change in antibody titre. Includes a repeat antibody identification on the current sample.
    (d) L490 Blood Group — ABO and $Rh_o(D)$. The subgroups of A and RhD^u are included where indicated. A direct AHGT is also included in L490, therefore, L495 may not be charged on the same patient when this code is claimed.
    (e) L492 Crossmatch. When an initial crossmatch is requested the appropriate claim is for L490 x 1, L482 x 1 plus L492 for each unit ordered. L490 and L482 may not be claimed more than once on the same day of service. L490 and L493 may not be claimed when these procedures are carried out as a confirmatory test on the units of blood to be transfused.
    (f) L493. This listing includes L490 (see (d), above) and Rh genotype to include the antigens C, D, E, c, e, and D^u when indicated. Any other antigen is to be claimed under L494.
    (g) L494 Blood Group per antigen. Antigens stated in L493 and L490 are excluded from this listing.
    (h) L495 Direct AHGT. This listing may be claimed when ordered as a single procedure or in addition to L482 when the latter is requested as a single procedure. L495 may not be claimed when L490 or L493 is claimed with L482 on the same patient on the same visit.

20. Antibiotic sensitivities should not be done routinely, but only when, by reason of its identification and/or its concentration, the isolated organism has a high probability of being pathogenic. **L621 applies to all routine antibiotic sensitivity testing regardless of the method used and including M.I.C. determination by manual kit or automated methodologies.**

21. The use of Nickersons Medium as a screening test for yeast is not a benefit.

22. The carcinoembryonic antigen test (CEA) L690 is not to be used as a general cancer screen. It is to be used only for following established malignancies.

23. This preamble is intended to apply to everyone using codes L700 and L001 to L731 and codes L800 to L837.

24. **Fees for laboratory medicine testing are not refundable (in whole or in part) to the referring physician or referring laboratory by the laboratory performing the tests.**

(5) Where a lower tier municipality is not within a conservation authority area, the amount payable under subsection (3) shall be deducted by the lower tier municipality from the county levy and the special levy as determined by the council of the lower tier municipality and the net amount so determined shall be the amount to be raised by the municipality in the year 1983.

(6) Where a lower tier municipality received a 1982 apportionment guarantee grant for conservation authority purposes less than the product obtained by multiplying the number of households in that lower tier municipality by one dollar, then the amount payable under subsection (3) shall be deducted by the lower tier municipality from the county levy and the special levy as determined by the council of the lower tier municipality and the net amount so determined shall be the amount to be raised by the municipality in the year 1983.

(*b*) the dollar amount paid under subsection (3),

and the remainder of the grant shall be deducted by the lower tier municipality from the county levy and special levy as determined by the council of the lower tier municipality and the net amount so determined shall be the amount to be raised by the municipality in the year 1983. O. Reg. 289/83, s. 17.

18. A by-law passed by the council of a county under subsection 365 (6) of the *Municipal Act* shall apportion the annual sum required for county purposes on the basis of the percentage determined for each lower tier municipality under section 15, and the amount that each lower tier municipality is required to provide shall be the amount so determined. O. Reg. 289/83, s. 18.

19. Where the council of the county finds a determination made under section 14, 15 or 16 to be incorrect, the council on or before the 31st day of December, 1983 shall amend the percentage shares of apportionment as set out in the by-law passed under subsection 365 (6) of the *Municipal Act* and shall notify the Ministry of such amendment O. (2) Where as a result of an appeal to the Ontario Municipal Board the treasurer of the county alters for the year 1983 the percentage share of responsibility for a lower tier municipality as described in subsection (1) or the council of the county amends its apportionment by-law in accordance with section 19, the Ministry shall redetermine the grant eligibility of each lower tier municipality within the county in accordance with subsections 17 (1) and (2), and the Minister shall adjust the amount payable to each lower tier municipality under subsection 17 (3) accordingly. (3) The Ministry of Municipal Affairs and Housing shall notify the treasurer of the municipality of the amount of the apportionment guarantee grant determined under subsection (2), and the Minister shall pay to the municipality that amount, if any.

(4) The amount payable to a municipality under subsection (3) in respect of the levy of a conservation authority shall be deducted by the municipality from the levy of the conservation authority and the net amount so determined shall be the amount to be raised by the municipality in the year 1983. O. Reg. 289/83, s. 38.

39.—(1) Where the equalization factor, the residential and farm assessment as defined in clause 7 (1) (*e*) of the Act, or the commercial assessment as defined in clause 1 (1) (*b*) of the Act, of one or more

IN THE MATTER OF the application of C. Clarke Cartage Limited *et all* published in THE ONTARIO GAZETTE of May 7, 1983 for an extension to public commercial vehicle operating licences or extra provincial operating licences for the extended Metropolitan Toronto Commercial Zone.

NOTICE OF OBJECTION

1. TAKE NOTICE that Dominion-Consolidated Truck Lines Limited opposes the above-noted applications.

2. Attached hereto is a certified copy of public commercial vehicle operating licence number A457 and extra provincial operating licence X1167 issued to Dominion-Consolidated Truck Lines Limited.

3.This respondent opposes the above-noted application on the following grounds:

(a) Dominion-Consolidated Truck Lines Limited opposes the above noted applications on the grounds that each applicant, if successful, would be given unlimited access to Toronto International Airport. Dominion-Consolidated Truck Lines Limited is presently licensed to serve Toronto International Airport and submits that (a) there are presently a sufficient number of carriers, properly licensed and with appropriate equipment and personnel to give the service presently sought by shippers seeking service to and from Toronto Internaitonal Airport; and (b) the licensing of all applicants seeking authority to serve the extended Metropolitan Toronto Commercial Zone including Toronto International Airport would create unacceptable and unmanageable congestion at Toronto International Airport.

(b) Such other grounds as to the nature of the application and the testimony submitted in support therof as this Honourable Board may permit.

The above-noted applications are opposed to the extent indicated above by Dominion-Consolidated Truck Lines Limited, 775 The Queensway, Toronto, Ontario M8Z 1N2, by its Counsel, F. Vincent Regan, Q.C., 65 Queen Street West, Toronto, Ontario M5H 2M5.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR—39/2

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of implementing projects under the Ministry of Natural Resources Special Employment Programs which consist of:

1. Projects carried out under the Federal-Provincial Job Creation Program and under the Federal Unemployment Insurance Act and involving the:
    1. Mining Sector Work Program
    2. Accelerated Forest Improvement Program
    3. Fisheries Special Employment Program

4. Conservation Authorities Sector Work Program

2. The Province of Ontario Short Term Job Creation Projects.

3. The Province of Ontario Fisheries Short Term Employment Program.

4. The supplementing of programs under the Canada Community Development Program.

5. The Canada/Ontario Employment Development Program.

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Natural Resources that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The Crown and the public will be damaged because the Ontario Government budget objective of short-term job creation may be impeded by taking time for preparation and submission of an environmental assessment for this undertaking.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The programs are short-term, lasting one year, with the majority of projects being anticipated to be undertaken during the summer and fall of 1983 and no later than one year after the granting of this exemption order.

B. The prime objective of these programs is aimed at providing short-term job opportunities for people who are currently unemployed.

C. This order exempts only those projects which are carried out under the programs which form part of the undertaking and does not exempt similar projects undertaken as part of the normal operations of the Ministry of Natural Resources.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources shall provide the Environmental Assessment Branch, within thirty days of the approval of this exemption, a list of the anticipated projects that will be exempted and were not included on such a list provided under Exemption Order MNR-39 which this order replaces. The list shall include the following information on each project:

   —project description and location;
   —the scheduled project commencement and completion date;
   —the MNR District within which the project will be carried out;
   —any related projects.

   This list and information will be revised every two months thereafter as additional projects are proposed and approved or listed projects are completed or deleted.

2. Where a project exempted by this order is the same as an undertaking for which a Ministry of Natural Resources' Class Environmental Assessment has been submitted, that project shall be carried out in accordance with the Environmental Quality Guidelines of that Class Environmental Assessment and the applicable Environmental Quality Implementation Handbook. If the Class Environmental Assessment does not have Environmental Quality Guidelines or an Environmental Quality Implementation Handbook, then the District Manager will ensure that, where appropriate, a related Environmental Quality Guidelines and an Environmental Quality Implementation Handbook are used.

3. This exemption does not apply to any project that is not completed by May 31, 1984.

4. This order exempts only those projects which are carried out under the programs which form part of the undertaking and does not exempt similar projects undertaken as part of the normal operations of the Ministry of Natural Resources.

5. Exemption Order MNR-39 is hereby revoked. O. Reg. 320/83.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 340/83.
Exemption—South Lake Simcoe Conservation Authority—SLS-03.
Made—May 26th, 1983.
Approved—May 26th, 1983.
Filed—June 7th, 1983.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—SOUTH LAKE SIMCOE
CONSERVATION AUTHORITY—SLS-03

Having received a request from the South Lake Simcoe Conservation Authority that an undertaking, namely:

> The program of raising the height of the northern and southern sections of the dyke roadways west of Highway 400 and north of Highway 9 by placing fill and gravel to an elevation of up to 221.07 metres (Geodetic Survey of Canada Datum) for the purpose of providing interim protection up to the one hundred year return storm level within the marsh area until the program of installing sheet piling on the dyke for permanent protection is completed,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the South Lake Simcoe Conservation Authority that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

> A. The community within the dyked area will continue to be threatened with the loss of life, property and agricultural produce, which is grown and stored in this area, if existing lower dykes fail.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The proposed undertaking is necessary in order to provide flood protection for up to the one hundred year return storm without free board, until sheet piling of the dyke is completed. Designing for the one hundred year return storm is consistent with existing Government policy on flood protection. The undertaking has the support of the Regional Municipality of York, the Holland Marsh Drainage Commission, the Townships of West Gwillimbury and King, the Town of Bradford, the Ministry of Natural Resources and the Ministry of Agriculture and Food.

B. The raising of the dyke by placing fill and gravel on top of the existing dyke roadways does not present any conflict with the Municipal and Township construction policy and zoning by-laws.

C. The proposed undertaking will have no significant adverse effects on the environment and the reasons are:

(i) The existing berms and canals of this area are all man-made and adjacent to an intensively managed agricultural area.

(ii) The placing of fill and gravel on top of the dyke roadways will not come in contact with the water surface of the canals. Therefore, the proposed construction will have no effect on the water quality.

(iii) The existing surface of the dyke is either a gravelled or tar and chip road. Therefore, no wildlife habitat will be affected by this improvement and upgrading program.

(iv) No existing vegetation will be disturbed.

This exemption is subject to the following terms and conditions:

1. The proponent is to ensure that the construction of the undertaking will not disturb the toe of the dyke in the existing canal and that no work is carried out in the canal.

2. The proponent is to ensure that the construction specifications contain the pertinent sections of the Ministry of the Environment's publication, *"Environmental Considerations for the Planning and Construction of Provincial Water and Sewer Projects"* and that these safeguards are followed during construction.

3. The proponent will submit a report describing each phase of the construction program prior to the commencement of construction to the Regional Director, Central Region, Ministry of the Environment, the Ministry of Natural Resources, the Ministry of Agriculture and Food and the benefitting municipalities.

4. The proponent will prepare a design for a monitoring report and submit the design for approval to the Regional Director, Central Region, Ministry of the Environment before construction commences. The purpose of the monitoring report is to document the successes and failures of providing adequate protection and restoration to the environment during the construction of the undertaking. Monitoring reports will be submitted to the same Branch no later than one year after completion of each phase of construction.

5. The proponent shall ensure that the undertaking is implemented in accordance with the suggested sound level limits of the Model Municipal Noise Control By-Law Final Report, August 1978 regarding Sound Level Limits—Specific Impulsive Sounds, Publication NPC-105, section 5 (3) and regarding construction equipment in residential areas, publication NPC-115, with respect to any properties on which residences are located, measured in accordance with the procedures referred to in the Final Report.

6. The construction of the undertaking commences prior to December 31st, 1983 and that construction of at least 25% of the undertaking be completed by December 31, 1984.

7. Where the undertaking which otherwise would be exempt from this order, is being carried out or is part of, an undertaking for which an environmental assessment has been done and approval to proceed received, the undertaking shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

8. Where the undertaking which is the subject of this order, is carried out or is part of, another undertaking which is the subject of an exemption order under the Act, the undertaking exempt from this order shall be

carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order. O. Reg. 340/83.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 341/83.
Exemption—South Lake Simcoe Conservation Authority—SLS-02.
Made—May 26th, 1983.
Approved—May 26th, 1983.
Filed—June 7th, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—SOUTH LAKE SIMCOE CONSERVATION AUTHORITY—SLS-02

Having received a request from the South Lake Simcoe Conservation Authority that an undertaking, namely:

> The program of upgrading and improving the Holland Marsh Dyke, west of Highway 400, by driving sheet piles into the top of the existing dyke and raising the existing dyke level up to 221.9 metre elevation (Geodetic Survey of Canada Datum) for the purpose of flood risk reduction to the community within the dyked area,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the South Lake Simcoe Conservation Authority that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The community within the dyked area will continue to be threatened with the loss of life, property and agricultural produce, which is grown and stored in this area, if existing lower dykes fail.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The proposed undertaking is necessary in order to provide flood protection facilities which can withstand the one hundred year return storm for this area. Designing for the one hundred year return storm is consistent with existing Government policy on flood protection. This undertaking has the support of the Regional Municipality of York, the Holland Marsh Drainage Commission, the Townships of West Gwillimbury and King, the Town of Bradford, the Ministry of Natural Resources and the Ministry of Agriculture and Food.

B. The driving of sheet piles into the top of the existing dyke does not present any conflict with the Municipal and Township construction policy and zoning by-laws.

C. The proposed undertaking will have no significant adverse effects on the environment and the reasons are:

(i) The existing berms and canals of this area are all man-made and adjacent to an intensively managed agricultural area.

(ii) The sheet piles, which are to be driven into the dyke, do not come in contact with the water surface of the canals. Therefore, the proposed construction will have no effect on the water quality.

(iii) The existing surface of the dyke is either a gravelled or paved road. Therefore, no wildlife habitat will be affected by this improvement and upgrading program. The sheet piling may help to improve local water quality by preventing road dust and dirt, etc. from being washed directly into the canal.

(iv) Although some willow trees may have to be removed between the road and the canal in order to install the sheet pile, on the whole, the majority of trees and vegetation will not be affected.

This exemption is subject to the following terms and conditions:

1. The proponent is to ensure that the construction of the undertaking will not disturb the toe of the dyke in the existing canal and that no work is carried out in the canal.

2. The proponent is to ensure that the construction specifications contain the pertinent sections of the Ministry of the Environment's publication, *"Environmental Considerations for the Planning and Construction of Provincial Water and Sewer Projects"* and that these safeguards are followed during construction.

3. The proponent will submit a report describing each phase of the construction program prior to the commencement of construction to the Regional Director, Central Region, Ministry of the Environment, the Ministry of Natural Resources, the Ministry of Agriculture and Food and the benefitting municipalities.

4. The proponent will prepare a design for a monitoring report and submit the design for approval to the Regional Director, Central Region, Ministry of the Environment before construction commences. The purpose of the monitoring report is to document the successes and failures of providing adequate protection and restoration to the environment during the construction of the undertaking. Monitoring reports will be submitted to the same Branch no later than one year after completion of each phase of construction.

5. 6. The construction of the undertaking commences prior to December 31st, 1983.

7. Where the undertaking which otherwise would be exempt from this order, is being carried out or is part of, an undertaking for which an environmental assessment has been done and approval to proceed received, the undertaking shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

8. Where the undertaking which is the subject of this order, is carried out or is part of, another undertaking which is the subject of an exemption order under the Act, the undertaking exempt from this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order. Made—May 26th, 1983.
Approved—May 26th, 1983.
Filed—June 7th, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-28

Having received a request from Ontario Hydro that an undertaking, namely:

> The activity of acquiring, holding, selling, leasing or otherwise disposing of approximately 1014 acres of land being composed of Lots D and E and part of the north half of Lot F, Concession 2, part of Lot C and Lots D, E, F, G and I, Concession 3, Lot C and the west half of Lot D, Concession 6, and Lot 6 on the south side of McNab Street, Townplot of Inverhuron and Lot 6 on the north side of Alma Street, Townplot of Inverhuron, all of which lands are in the Township of Bruce and approximately 370 acres in the Township of Kincardine being parts of Lots 30, 31, 32, 33 and 34, in Concession A, all of which lands are in the County of Bruce,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act the following damage or interference with the persons indicated will occur:

A. Ontario Hydro will be interfered with by the delay which might result from the requirement to prepare an environmental assessment for acquiring and holding the land which acquisition must be completed as a condition of Ontario Hydro acquiring the full rights to use the planning information which has been prepared to date on the proposal to establish the Bruce Energy Centre for which Ontario Hydro is preparing an environmental assessment.

B. The private shareholders of the Bruce Energy Centre Development Corporation, as indirect owners of the subject property,

will be damaged in that they would be delayed in recovering their investment if Ontario Hydro were required to prepare an environmental assessment for the Bruce Energy Centre before purchasing the land.

C. Ontario Hydro will be further interfered with by the delay which might result from the requirement to prepare an environmental assessment for leasing any or all of the subject land or for selling or otherwise disposing of so much of the subject lands which is deemed by Ontario Hydro not to be required for the development of the Bruce Energy Centre.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The land purchase is part of and in accordance with the Provincial Government objectives of bringing to economic fruition in a timely way the development of an agricultural, aquacultural, commercial or industrial undertaking using heat energy (steam), produced at the Bruce Nuclear Power Development as a source of energy in substitution for conventional fuels such as natural gas and oil.

This exemption is subject to the following terms and conditions:

1. This exemption does not apply to the purchase of any property for which Ontario Hydro has not obtained title prior to December 31st, 1983.

2. The fact of ownership of the property shall not be used as a rationale for not considering other locational alternatives in the environmental assessment being prepared by Ontario Hydro.

3. The present use of the properties shall not be substantially changed by Ontario Hydro or any tenant of Ontario Hydro before an approval to proceed or an exemption is issued under the Act for the Bruce Energy Centre development to proceed.

4. Ontario Hydro shall not sell or otherwise dispose of any of the lands prior to obtaining an approval to proceed or a subsequent exemption therefore, except where such land is not required for purposes of the Bruce Energy Centre.

5. Ontario Hydro shall, not later than 30 days after this order is published in THE ONTARIO GAZETTE, provide for filing in the Public Record an updated schedule of key dates related to the production of an environmental assessment for the Bruce Energy Centre Development, and regularly update the schedule at least every two months.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 348/83.
Exemption—Ministry of Natural Resources—MNR-30/3.
Made—May 20th, 1983.
Approved—May 20th, 1983.
Filed—June 9th, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-30/3

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The carrying out of the Provincial Parks Program including:

(*a*) Implementing:

1. Master Plans,
2. Site Plans,
3. Management Plans,
4. Visitor Service and Interpretive Programs,
5. Development Activities,
6. Capital Construction and Lease Purchase Projects,
7. Wildlife Habitat Improvement Projects,
8. Operations and Maintenance Plans and Schedules,

in Provincial Parks;

(*b*) Developing sewage or water works within or for Provincial Parks;

(*c*) Acquiring land to amend the boundaries of existing Provincial Parks; to complete land acquisition for an existing Provincial Park; or for a sewage lagoon in or for a Provincial Park; and

(*d*) Establishing, amending and rescinding boundary regulations for existing Provincial Parks;

be exempted from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The Ministry of Natural Resources (MNR) is presently preparing an Environmental Assessment for the Provincial Parks Program for approval under the Act. This work will be hampered by having to prepare separate exemptions or assessments for all Provincial Parks projects at the same time.

B. Park environmental and recreational features could be damaged in the absence of Provincial Parks projects that address existing park management problems.

C. Public enjoyment of recreational features may be reduced in the absence of the implementation of Provincial Parks projects.

D. The realization of Government's Outdoor Recreation Program Objective and economic benefits to local communities would be limited.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The Ministry of Natural Resources is preparing an Environmental Assessment for the Provincial Parks Program which will be submitted under the Act for acceptance and approval before the expiry of this exemption. This Environmental Assessment will address the activities that make up this undertaking.

B. This interim exemption will allow Provincial Parks plans and projects to continue until the Environmental Assessment on the Provincial Parks Program is accepted and the undertaking approved.

C. The Provincial Parks Program is carried out within a context of conservation, protection and wise management of the environment. A major feature of the Provincial Parks Program is the preservation of significant, natural and cultural features in the Ontario landscape.

D. The conditions to which this order is subject will ensure that affected Government agencies and the public are informed of the Ministry of Natural Resources' intentions to implement components of the Provincial Parks Program during the period of this exemption.

E. A number of activities that make up this undertaking are similar to activities that are covered by approved MNR Class Environmental Assessments. The Minister of Natural Resources will apply such parts of the procedures specified in the class Environmental Assessments as are appropriate to the activities that make up this undertaking until such procedures, or other procedures are made directly applicable by the Environmental Assessment referred to in Reason A.

This exemption order is subject to the following terms and conditions:

1. This exemption does not apply to any plan or project:

   (*a*) where development is likely to modify or disturb the habitat of a species designated under the *Endangered Species Act*;

   (*b*) where the estimated completion cost of a sewage or water works project, a Capital Construction or Lease Purchase Project is in excess of $2 million, not including any land acquisition costs;

   (*c*) where a major resource extraction facility or operation is to be developed or substantially upgraded or have its operating restrictions changed significantly or removed within a Provincial Park;

   (*d*) where a major commercial recreation facility is to be developed or substantially upgraded by the private sector within a Provincial Park;

   (*e*) where a master plan for an undeveloped Provincial Park is being implemented, unless the master plan is for a nature reserve class of park;

   (*f*) to acquire land for or establish boundary regulations for a new Provincial Park.

2. MNR will provide the Environmental Assessment Branch as well as the Regional office of the Ministry of the Environment (MOE) with annual work plans for the Provincial Parks Program no less than 30 days prior to the implementation of any plan or project. The annual work plans will specify the nature, size and location of all plans and projects. MNR will notify the above offices of revisions to the work plans no less than 30 days prior to the implementation of any such plans or projects.

3. A copy of each plan included in the work plan noted in Condition 2 shall be available to the public for examination at the appropriate District Office of MNR at least 30 days before implementation commences.

4. Activities carried out in Provincial Parks that would be covered by an approved MNR Class Environmental Assessment, except that they are occurring in a Provincial Park will:

   (*a*) follow the appropriate Class EA procedures, including notification, if there is no Master Plan; and

   (*b*) follow the environmental quality guidelines and Construction and Mitigation Handbook, if there is a Master Plan.

5. Should it become apparent to the Ministry of Natural Resources that a project exempt under this order meets the criteria set out below, or the public approaches either the Ministry of Natural Resources or the Ministry of the Environment, and upon notice and consultation between Ministries, either Minister may decide that an individual Environmental Assessment be prepared in the following circumstances:

   (*a*) where a proposed plan or project generates an unusual amount of public or Government concern;

   (*b*) where there are unusual or significant potential environmental impacts not adequately treated in the pertinent planning exercise;

   (*c*) where a land area that has significant earth science, life science or cultural features is acquired for the purposes of or is brought into the Provincial Parks Program; and

   (*d*) where a Provincial Park is to be retired.

6. Where an Environmental Assessment has been done and approval to proceed received

or an exemption granted for an individual Provincial Parks plan or project, that plan or project shall be deemed to be a separate undertaking not exempt by this order.

7. During the period covered by this order, MNR will continue its compliance with the *Environmental Protection Act* and the Provincial Parks Program shall be planned, implemented and managed according to the following Provincial Parks' guidelines and policies:

—Ontario Provincial Parks Policy
—Ontario Provincial Parks Planning and Management Policies
—Park Management and Operating Plan Format
—Landscape Design Principles and Guidelines
—Visitor Services Interim Policy
—Master Planning Guidelines (when approved)

8. Any revisions to the guidelines and policies cited in Condition 7 and any new policies and guidelines will be placed in the Public Record for this exemption order.

9. Those plans and projects planned under this exemption, but not fully implemented by the date of expiry of this exemption, will have their status under the Act reviewed in connection with the review of the Environmental Assessment of the undertaking referred to in Reason A and, if provided for in conditions of approval issued in connection with the undertaking, may continue to proceed in accordance with such conditions.

10. This order expires on the earlier date of October 31, 1983 or upon the granting of an approval under the Act for the Provincial Parks Program undertaking.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.
